

CONVICTS IN TEXAS MUTINY

Storm Arsenal, Shoot Guards, Then Flee

HUNTSVILLE, TEXAS, May 12.—More than a score of state convicts, many of them armed, mutinied today, stormed the arsenal, shot two guards and fled.

Elks Give Blood To Lodge Member To Save His Life

COLUMBUS, O., May 12.—Exemplifying the brotherhood bond of their order, two members of the Elk lodge today underwent a blood transfusion operation at a hospital here in order that a third member of their order might live.

William F. Berkheimer, of Columbus, and Paul Austin, of Marion, each gave a pint of blood for Fred D. Jacobs, a Marion architect, who is so seriously ill that physicians said only the transfusion of blood could save him.

Learning of Jacobs' condition, two automobile loads of Marion Elks rushed to Columbus late yesterday and offered their blood. Berkheimer joined them here. All subjected themselves to blood tests and Berkheimer and Austin were selected.

Sell Stock In League Of Nations

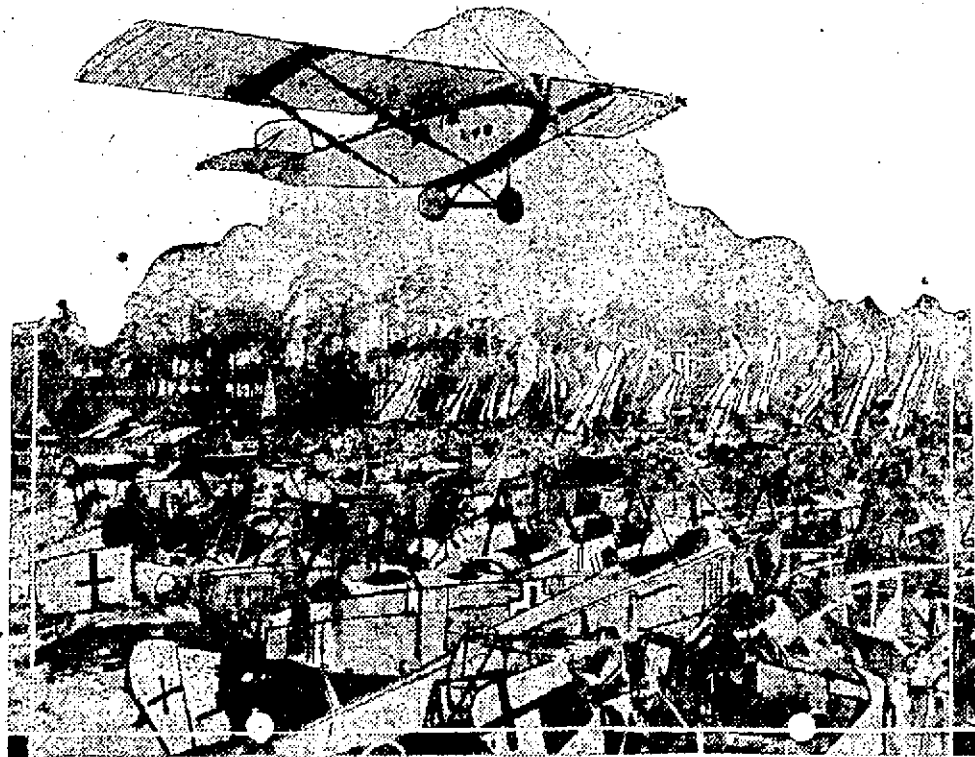

CHICAGO, May 12.—Stock in the League of Nations, at ten dollars a share, is the latest bargain to be offered to the Chicago investing public. Department of justice agents today began searching for the men who have victimized numerous persons by selling the stock, collecting 25 percent of the price in advance of delivery.

The League of Nations was represented as the greatest organization in the world, and prospective purchasers were told dividends would be large because of the great value of the league to humanity.

Connors Out To Head Switchmen

TOLEDO, O., May 12.—J. B. Connors, of Chicago, now vice president of the organization, today announced that he will be a candidate for grand president of the Switchmen's Union of North America, which is holding its convention here. His friends said he would be elected by a large vote to succeed S. E. Hoberling, who will not be a candidate for re-election.

Germany Builds New Air Fleet As Diplomats Haggle With Allies

New type of German monoplane flying low over ruins of part of Germany's war fleet near Berlin.

This photo might be labeled "Germany's air fleet rises over ruins of old." While the German diplomats have been dicker with the allied representatives over reparations terms, the German airplane experts have been rebuilding the German air fleet. Under the peace terms, Germany was forced to scrap all its fighting planes.

Fire Bugs Blamed For \$750,000 Fire In Youngstown

COLUMBUS, O., May 12.—State Fire Marshal H. A. Dykeman, and a number of deputies left today for Youngstown, to begin an investigation of circumstances surrounding the \$750,000 blaze, which occurred there

early this morning, and which firemen say was incendiary.

YOUNGSTOWN, O., May 12.—Fire believed to have been of incendiary origin, early today swept an area of 10 acres on the outskirts of the downtown business district here, consuming a dozen buildings, rendering 30 families homeless, and causing a loss estimated at a million dollars.

The fire started at Parish Brothers' lumber yard and after destroying that swept on to a power house, a brewery, a huge warehouse, and several other business places. Cans of cooking oil and canned fruit in the warehouse exploded, some of the cans being hurled 300 feet. Embers set fire to a house half a mile away.

JUDGE BEN LINDSEY PAYS FINE IN CONTEMPT

DENVER, COLO., May 12.—Ben B. Lindsey, judge of Denver's juvenile court, announced today he would pay a fine of \$500 and costs assessed against him following his conviction on charges of contempt of court.

Judge Lindsey's action will end a five year controversy. He was adjudged in contempt by Judge John Perry, of the district court, in 1915. Judge Lindsey had refused to divulge what Neal Wright, a 13 year old juvenile court ward, had told him about the murder of the lad's father. The boy's mother was tried for the murder and acquitted.

Judge Lindsey refused to obey the court's order because he said if he testified he would be "betraying the confidence of a child."

Judge Lindsey's fine and costs was to be paid out of his own funds. He declined aid proffered by bar associations, boys' clubs, civic and other organizations and individuals.

"I have no regrets," said Judge Lindsey today. "I believe the fight we made was right. No court again will ask a juvenile court judge to betray what a child has told him."

Tense Feeling In Germany Has Relaxed

EX-MRS. GOULD RETURNS TO U.S. AS A PRINCESS

Princess Viora, formerly Mrs. Edith Kelly Gould, as she appeared on her arrival.

Storm Of Past Few Days Subsides

BERLIN, May 12.—Marked relaxation from the tenseness of feeling which has prevailed the last few days was observable in German political circles today, now that the crisis raised by the allies' ultimatum has been passed, through acceptance of the allied terms by the ministry of Chancellor Wirth, organized to meet the emergency.

Today had appeared in prospect as likely to prove one of the most momentous in the history of the country, owing to the fact that the allied ultimatum was due to expire at midnight tonight. With the question of acceptance settled in the affirmative, two days in advance, however, the red lettering of the date had been totally erased from the calendar, and the day offered no probabilities of supplying unusual happenings, unless it might be in connection with the Upper Silesian disturbance, which is giving no little concern to Berlin official quarters.

In domestic political circles thought centered upon the probable term of life of the new cabinet and the question of the selection of a foreign minister to relieve Chancellor Wirth from performing the duties of that post, which he assumed temporarily when the new cabinet was organized.

TRAIN RIDER IS KILLED
MARIION—After being liberated in Cleveland where he was arrested for illegal train riding, Howard Rosenberg, 21, was killed here a few hours later when he attempted to board a train.

REORGANIZED GOODYEAR FIRM FILES INCORPORATION PAPERS

COLUMBUS, O., May 12.—The reorganized Goodyear Tire and Rubber Company, of Akron, today filed articles of incorporation with the Ohio secretary of state.

The articles provide for \$140,010,000 of preferred capital stock and 1,500,000 shares of non-preferred common stock. In all, there are 2,910,000 shares of both classes of stock. The fee paid for the state was \$200,010, the largest ever received by Ohio from a corporation for this purpose.

The reorganization scheme also provides for \$30,000,000, eight per cent twenty year first mortgage bonds and \$30,000,000 eight per cent ten year debentures. The preferred stock is divided into three classes: \$40,000,000, eight per cent prior preferred; \$100,000,000, seven per cent ordinary preferred; and \$10,000,000 six per cent management preferred.

Up until today since organization in 1898, the company had paid the state \$200,000 in fees on original stock issues, increases and amendments to articles of incorporation. With the fee paid today, the company's contribution to the state treasury since its organization has been \$401,000.

CLEVELAND, O., May 12.—The jury of one woman and eleven men that will decide the fate of Frank J. Davis, on trial charged with first degree murder last December of Willard C. Sly and George K. Panner, was sworn in this morning after 119 talesmen had been examined in five days' legal battle.

Taking of testimony was to begin this afternoon.

MILLIONAIRE SERGEANT IS GRANTED A DIVORCE

WARREN, O., May 12.—Judge A. S. Cole today granted a decree of absolute divorce to Thomas H. Wells, "millionaire sergeant," member of an old and wealthy Youngstown family, from Stacia Welsh Wells, a Youngstown steel worker's daughter, who married Wells in New York, while she was a manufacturer there.

The court finally awarded Mrs. Wells an allowance of \$300 a month. She asked for \$500 a month. One attorney was granted \$4,000 in fees, and another firm \$1,000, while Mrs. Wells was allowed \$1,000 for expenses in connection with the case.

The judge's decree found Mrs. Wells guilty of adultery in Cleveland, Lorain, Toledo, Ohio; Goshen, Ind., and Chicago, with H. M. Wallis, a young millionaire of Racine, Wis. The opinion completely exonerated Mrs. Sam Harris, of New York, wife of the theatrical manager, and Mrs. Herbert Owen, of Youngstown, implicated in counter testimony given by witnesses for Mrs. Wells. This decision was made upon special request by Wells' attorneys.

Argument upon the question of alimony was begun after the decree was handed down.

Traction Strike On Northern Ohio Is Called Off

AKRON, O., May 12.—Street cars were running on schedule on all divisions of the Northern Ohio Traction system. The seven day strike of the 1,100 platform employees was officially called off last night when the count of the strikers' ballots showed that 629 voted to return to work and 46 against.

The men resume work, accepting a 15 cent an hour cut in wages pending arbitration of their wage controversy. Charles Currie, of Cleveland, has been selected as the arbitrator for the company. He served in similar capacity last year in the Akron employees' wage dispute with the Northern Ohio Traction Company.

KRASSIN, LENINE'S TRADE ENVOY, TO COME TO AMERICA

Leonid Krassin, Russian vice trade envoy, who was successful in arranging a trade agreement with Great Britain for Lenin's communist government, is to visit the U. S. and Canada next month, it is reported. He may establish a soviet embassy in Canada, it is said.

Harvey Received By King George

LONDON, May 12.—Colonel George Harvey, the new American ambassador, was received this forenoon by King George at Buckingham palace, the ambassador presenting his letters of credit to the king.

Ambassador Harvey was accompanied to the palace by Sir John Hanbury-Williams, marshal of the diplomatic corps, J. Butler Wright, secretary of the embassy, and the members of the embassy secretariat. The ambassadorial party drove to Buckingham palace in royal carriages.

SEEK AGREEMENT ON TARIFF AND ANTI-DUMPING BILL

WASHINGTON, D. C., May 12.—Senate and house conferees will begin their efforts to reach an agreement on the emergency tariff and anti-dumping bill probably tomorrow. The measure was passed by the senate late yesterday.

Although all amendments offered from the floor were promptly defeated in the senate, the bill differs radically from that passed by the house, the anti-dumping and currency revaluation sections having been entirely rewritten and provision made for continuing war time restrictions on imports of dyestuffs by the senate finance committee. The tariff features, however, were kept intact.

The vote on passage yesterday was 63 to 28, seven Democrats joining with the Republicans on the final roll call and but one Republican, Moses, of New Hampshire, voting against it. The bill will be effective for six months by which time leaders hope to see the permanent tariff bill, now being framed by the house and means committee, enacted into law.

Iron Workers' Strike Settled In Cincinnati

CINCINNATI, O., May 12.—Structural iron workers and rod men, who have been on strike here since last November, have agreed to become members of the Cincinnati Wage Adjustment Board and return to work at a reduced scale of wages. This action followed endorsement of the Cincinnati plan by the executive council of the building trade department of the American Federation of Labor. The council last week endorsed the wage adjustment plan as a model for other cities and as a means for avoiding abuses in sympathetic strikes in the building trades.

Man Sheriff Forgot To Hang Starts Life Term

SHREVEPORT, LA., May 12.—The last chapter in what is declared to be one of the most remarkable cases on record was written here today when Lennie Eaton, Ouachita parish negro, was taken from the Caddo parish jail and delivered to the warden of the state penitentiary at Baton Rouge, to begin his life sentence.

DISCOUNT RUMOR CLARK TO RESIGN G. O. P. CHAIRMANSHIP

COLUMBUS, O., May 12.—While there has been considerable talk that George H. Clark, Canton, might present his resignation as chairman of the Republican state executive committee at the meeting of the state central committee here today, committee members arriving this forenoon for the meeting invariably discounted the rumor. The general comment concerning the rumors was "the wish probably was father to the thought."

W. E. Halley, senate clerk, who has been mentioned as probable candidate for the chairmanship, should Mr. Clark resign, declared today that he is not a candidate and that he would not accept the position. It is understood that Mr. Halley has been tendered the vice chairmanship of the national committee. The committee was not scheduled to meet until one o'clock, central time. The purpose of the meeting as specified in the call is to consider election board contests in Darke and Sandusky counties.

Should the resignation be forthcoming, it is said that Dave R. Jones, of Cleveland, will be put forth by followers of Governor Davis as Clark's successor, while W. E. Halley, clerk of the senate, was mentioned as a possible recipient of the support of Republicans, who have been associated with Attorney General Daugherty and Senator Willis.

Jones candidacy for chairman of the state executive committee is said to have the backing of Governor Davis, who is said to be planning to gain control of the committee in order to assist in carrying out his plans for reorganization of the state government.

Jones was Governor Davis' personal representative at Republican state headquarters during the campaign last fall.

Instructor Defends Position

PITTSBURGH, PA., May 12.—Dr. Archer E. Young, an instructor at Miami University, Oxford, Ohio, who stepped out of his position at the request of a committee of under graduates, issued a statement here tonight in which he declared that the present situation at the institution, "is the outgrowth of my earnest efforts to combat certain existing evils, affecting individual students and certain groups of students."

Deadlock On Taxation Question; Legislature Meets To Finish Long Program

COLUMBUS, O., May 12.—The general assembly reconvened this morning after a two weeks' recess for the purpose of finishing its legislative program and then either adjourning sine die or recessing until next January.

Notwithstanding the urgent request of Governor Davis that some taxation amendment be submitted to the voters, the conference committee appointed before the recess to try and formulate an amendment was said to be hopelessly deadlocked and may report to the legislature its inability to reach any agreement.

The joint conference committee named to consider the biennial appropriation bill will be able to recommend a bill for passage in which both house and senate members have agreed, it was said today.

To Search For Chariots Named In The Bible

PHILADELPHIA, PA., May 12.—Dr. Clarence S. Fisher, curator of the Babylonian section of the University of Pennsylvania museum, left here today for Palestine to undertake what he described as one of the most important excavations ever made in the Holy Land, and the first since the beginning of the world war.

He expects to find among other things some of the iron chariots mentioned in the Bible which prevented the children of Israel from capturing Jericho, near which city some of the greatest battles of early history were fought. Jericho is near Nazareth, close to the Mount of the Transfiguration. It has been uninhabited for centuries. But it is believed to have had at least five thousand years of continuous history during which Amorites, Egyptians, Babylonians, Assyrians, Scythians, Hebrews, Greeks, Romans, Arabs and Crusaders have occupied it. Dr. Fisher will stop in Egypt for his equipment and Arab workmen, and plans to start digging by the middle of June.

Held For Burning His House

COLUMBUS—State Fire Marshal H. A. Dykeman was notified of the arrest in Toledo of Dave Williams, wanted in connection with the burning of his home in Mansfield. His wife is said to have confessed that Williams set fire to the house in order to collect insurance said to amount to \$1,000.

After Years of Darkness-

LAURA, a blind girl, lived in squalid quarters in Dunn's Court. The shady characters in whose care she had been placed when a baby, in trying to be kind to her, had drawn rosy pictures of her home and surroundings. Imagine her grief and shock, when her sight was restored, and she saw with her eyes instead of with her heart! But all came right in the end in this heart-grIPPING drama of a young girl's faith, "THE EYES OF THE HEART," in which MARY MILES MINTER, "the Sunbeam of the Screen," has made the greatest success of her remarkable career.

DR. C. C. ADAMS UNDER ARREST; WILL FACE A SERIOUS CHARGE

Dr. Charles Chester Adams, chiropractor, who occupied a suite of rooms in the Masonic Temple during his stay here of several months, and who disappeared several days ago, was taken into custody by the sheriff of Logan county at Bellefontaine Wednesday afternoon, at the instance of local authorities, and will be returned to this city to meet a charge of obtaining \$1500 from Edward S. Briggs, 1044 Gallia street, under false pretenses.

The warrant for Adams' arrest was issued from Municipal court and the accused was located at Bellefontaine through the efforts of the Columbus officers who had been seeking him for several days. On receipt of word that Adams was under arrest, Sheriff Rieker left yesterday afternoon at 10 o'clock for this city and returned to the prisoner to this city and the officer is expected to arrive here Thursday evening with his prisoner.

The complaint filed by Briggs alleges that he was induced, upon representations made by Adams that he had large sums of money in two banks at Portsmouth, to enter into a contract on March 3 last, to buy a one-half interest in an X-ray outfit and to assist him in operating the business, paying \$3,000, half of which was represented

B. C. BRATT ANSWERS FINAL CALL

One of the best known citizens of the West End was claimed by death this morning about five o'clock when the final call of eternal rest came to Benjamin Clifford Bratt at his home, 617 Front street. He had been ill for some time and had been bedfast since February 14, suffering with sciatica. His condition grew steadily worse and when complications developed his condition became very serious.

Benjamin Clifford Bratt was born Nov. 11, 1851, at Hanging Rock, a son of Benjamin J. and Mary Williams Bratt. They moved to Portsmouth in 1855. Mr. Bratt making this city his home from that time until the end of his earthly career.

In 1863 he was married at Firebrick, Ky. His faithful wife passed away in this city in 1913.

Mr. Bratt had been a hard worker in his early life and while a young man took up the work of civil engineer. He followed this line for some years and at different times was city engineer here. He had charge of the

work of improving many of the streets in the West End. He also helped build the C. & O. in Kentucky and also the Nickel Plate line going into Chicago. Although this work took him out of Portsmouth for long periods of time he maintained his home in this city.

In later years he had been assistant river and weather observer, helping River Observer Fred B. Winter. Mr. Bratt, as most all citizens along the river front, was always interested in the river and its steamboats. He was said to be as well posted as any riverman in the city and many sought information from him along this line.

The deceased was one of ten children, the only surviving child of the family being a brother, Joseph Bratt, of 617 Front street. He also leaves a nephew, Joseph M. Bratt, and a cousin, Mrs. William Musser, of this city.

Mr. Bratt was a member of the Odd Fellows' lodge for 46 years. He belonged to all branches of the lodge

and had held all of the high offices. He was very prominent in this lodge and was elected delegate to conventions several times. He was also a Mason, having attained the Knight Templar degree.

Mr. Bratt was a member of the First Presbyterian Church for a number of years and when able attended the Sabbath School services there. He was very fond of children and took quite an interest in the children of the Sunday school.

The deceased was a man of strong convictions, and when he had made up his mind on a certain subject it was useless for anyone to attempt to make him change his viewpoint. He was ever loyal to his friends and will be greatly missed.

Funeral services will be held from the home Saturday afternoon with the Odd Fellows in charge of the services. Rev. D. C. Boyd will conduct the last rites assisted by Rev. B. B. Cartwright.

Pleasing News Awaits Rev. Boyd; Salary Boosted

Welcome news awaits Rev. D. C. Boyd, pastor of the First Presbyterian church when he returns from Cincinnati Friday, where he has acted as examiner at an important Presbyterial meeting.

At a congregational meeting of his church last night Rev. Boyd's salary was unanimously increased from \$2,500 to \$3,000 a year. Dr. W. D.

Tremper was chairman of the meeting and Miss Mae Ricker was secretary.

Rev. Boyd is now serving his third year as pastor of this church, which has been singularly successful. During the past year 133 new members were added and the church never was in a healthier or more prosperous condition, which is no small measure is due to the untiring and systematic

work of Rev. Boyd. He possesses splendid executive ability in addition to being a capable pulpit orator. He is making the old First church one of its most popular and efficient ministers and it has had an enviable list.

The board of deacons increased its membership by adding the names of Maurice L. Cooper, H. L. Glenn and O. J. Deltzler.

DISTRICT MISSIONARY SOCIETY IS MEETING IN SCIOTOVILLE

The convention of the Portsmouth District of the Woman's Home Missionary Society opened at nine o'clock this morning in the M. E. church at Sciotoville, with many members in attendance from Ironton, Haverhill, Wheelersburg, Sciotoville and Portsmouth churches.

Opening with devotions by Mrs. E. H. Blazer of Manly M. E. church, the guests were extended the welcome by Mrs. Albert Reinecker of Wheelersburg. Mrs. H. S. Allen made the response in a few words after which the president's greeting was given by Mrs. Howard Sellards of Trinity church.

Mrs. Phillip Pfarr of the Wheelersburg church gave a report of the work being done in her congregation, while Mrs. Charles Tingle, corresponding secretary from the district, and Mrs. U. S. Curmiste, secretary of children's

work, gave reports of their work for the past year. Mrs. G. D. Waite, secretary of literature, was present and told of the material in her charge. The treasurer's report was given by Mrs. Albert Clary. The business was interspersed with songs and readings by Miss Luella Rhulman.

At noon a delightful intermission was enjoyed, those present being served with dinner in the church dining room by the women of the Sciotoville congregation.

The afternoon session opened at 1:30, with devotions by Miss Winnie Stewart. Other numbers included on the program were:

Vocal Solo—Mrs. R. G. Gilmore.

The evening session will open to night at 7:30, with an address by the Rev. N. E. Butler, of Trinity church, after which the Queen Esther girls of Trinity, will give the pageant, "From Darkness to Light."

Exterminate The Flies

HAMMER CLUB LOSES LOYAL MEMBER

In the death of Ben. Bratt, who passed away at his home on Front street, the Hammer Club loses a life-long and a most loyal member. His death will be deeply regretted by this organization.

Mr. Bratt was almost a daily attendant at the club and always evinced much interest in its affairs.

He was an exceptionally well posted river man and his judgment on matters pertaining to the cupricious Ohio were always sought. Congenial and affable at all times, Mr. Bratt's absence from the club will be felt.

Fire Prevention Week is a good time to think of a Fly Prevention Week, or a Fly Extermination Campaign Week. Now is the time to go after a common enemy of mankind, the house-fly or typhoid fly—carrier of disease. It is the most dangerous "animal" that exists. It has carried death to more human beings than have all the hosts of bees and poisonous reptiles put together.

It carries the germs of diseases on its feet and in its suckling stomach and distributes them wherever it walks, regurgitating them through its proboscis on articles of food, and depositing its hosts everywhere in its excrement—the so-called "fly specks."

The most serious manner in which the fly is to do away with the breeding places, instead of swatting until the fly is here and going about its mission of spreading dread diseases. By doing away with the breeding places, primitive privies and deposits of night soil, the breeding places of flies will be destroyed. They will also breed in garbage of all kinds even in old clothes and paper when damp and fermenting, also in all sorts of animal and vegetable refuse.

All A Mistake Judge; Dismissed

Garfield Baer and Hughie Davis, both colored, became involved in an argument in the North End Wednesday night which led to a brief personal encounter and this explained the appearance of the pair before Judge Sprague in Municipal court Thursday.

Both told the court that the trouble grew out of a misunderstanding and that they were friends again which prompted the court to dismiss them with a warning.

St. Mary's Play Tonight

The High School Auditorium, no doubt will be packed tonight when the St. Mary's High School students will stage their class play, "The Treasure Hunters." It is full of action, "pep"

and romance. The advance sale is unusually large. The play will be repeated Friday night.

The curtain will rise at 8:30 new time.

Will Address Play Leaders

Edward Giffman will give a talk on the Boys' clubs at the Play Leaders' Class tonight. Therefore, the men of Portsmouth are urged to be present at the talk and later to join in the

games and play with the class. The class took initial steps in forming a permanent organization of a Play Leaders' Club and will elect officers for the club tonight.

Kills Rabbit; Fined \$25

Admitting guilt of killing a rabbit out of season in violation of the game laws, Charles M. Pyle, of Sciotoville, was ordered to pay a fine

of \$25 and costs by Judge Sprague in Municipal court Wednesday. The complaint was filed by Game Protector Frank Voorhees.

Quartette Is Pleasing

The Portsmouth high school auditorium was well filled last night when the last number on the elementary school lecture course was given by The Criterion Male Quartet. It rendered splendid vocal selections and won the approval of the audience.

The quartet was composed of four boys, who were well trained in their art. They sang with clear voices and good harmony.

"Don't you want to be a leader of the people?" "It's hard work to be a real leader," commented Senator Sorghum. "It's usually easier to get along by jollyng the crowd."—Washington Star.

Beer For Sick Gets Hearing Before Committee

WASHINGTON, May 12.—Wear and drows lined up today before the house judiciary committee in a fight over Chairman Volstead's bill designed to turn off the beer spigot which dairy claim has been tried open by the ruling of Attorney General Palmer permitting use of beer as a medicine.

Wayne B. Wheeler, counsel for the Anti-Saloon League, opening the discussion. He declared beer could be described in no other way, than by calling it "hoose." And as such, he added, it must go the way of its near relative, whiskey.

"Why beer is not a tonic," Mr. Wheeler shouted at one point. "It is Tautone."

He then referred to the congressional investigation of the German-American Alliance and its connection with the brewing interests.

Mr. Wheeler said the beer preparation was a plain substitute for what was an evident move to get around the 18th amendment.

An attack on New York World, particularly the New York World, made by William H. Anderson, superintendent of the New York Anti-Saloon League. He charged some of them had inspired violation of the law.

"During the war," he added, "most newspapers were suspended or published by the government for offenses less serious than such as I mention here."

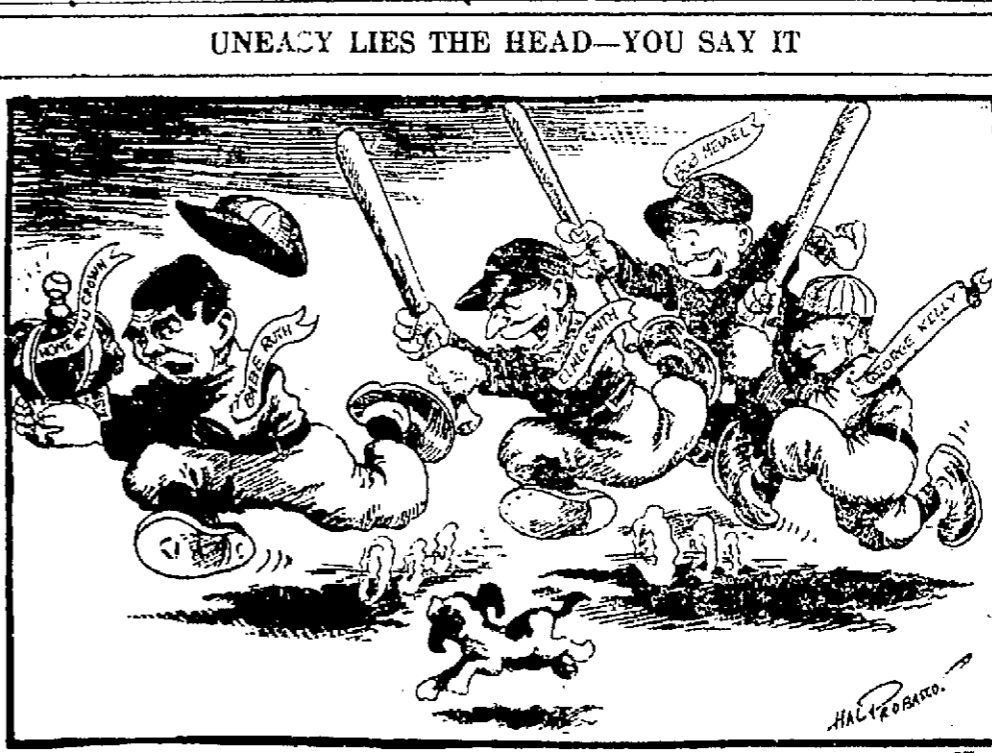

Oliver T. Rommers, counsel for the Ambesser-Busch Brewing Company of St. Louis, urged a congressional investigation of favoritism and failure in enforcement of the prohibition laws.

Mr. Rommers presented a statement from A. A. Busch, president of the brewing firm, urging enactment of a supplementary enforcement bill and opposing medicinal beer.

"To make it possible for only the rich to purchase is against the great right of the greatest number," Mr. Busch wrote. "I say, beer for all or for none."

CORDIAL WELCOME IS GIVEN TO PITTSBURGH BUSINESS MEN

Visitors Impressed By Interest Shown In Their Coming To The City

Surpassing herself in all like affairs of the past, Portsmouth, through the Chamber of Commerce, Wednesday, brought forth a cordial welcome to the 137 men of the Pittsburgh Chamber of Commerce who are on the Twentieth Golden Rule Trade Extension Tour conducted by that bustling organization. From the minute they stepped from their special train at the S. & W. depot at 4:30 Wednesday afternoon until last night, when the speaker held at the Auditorium in their honor came to a close, the guests were given every attention by the local Chamber of Commerce members. The local reception being the best featured of the tourists so far on this year's trip. With such words of praise from the tourists, who have already visited Dayton and Columbus, Portsmouth has a right to feel justly proud of the record she made yesterday in looking out for the entertainment of the Smoky City visitors.

Messages of good cheer, filled with pleas to forget the down-grade times that are just passing, and to look forward to the bigger and brighter things that are sure to come to this great Ohio Valley, which is destined to be the workshop of the world, were brought by the able speakers from the Pittsburgh delegation to the crowd of close to 500 Portsmouth citizens who gathered in the Auditorium at 8 o'clock to attend the evening session and smoker.

In the large number present were some few women, who by their presence showed that they were taking a keen interest in the things that lead to a betterment of the community. Speakers are optimistic.

The remarks of the speakers were filled with optimism all the way through, both the visiting speakers bringing to the local audience facts from Pittsburgh and the Ohio Valley that were convincing and which showed that Portsmouth and Pittsburgh have many things in common. The importance of the Ohio Valley, the wonderful part it is sure to play in the future history of the world,

was stressed by all the speakers, who painted word pictures of a territory from the Scioto river to Pittsburgh, filled with industrial plants so large in number that the title, "The workshop of the world," would be given it the world over.

Henry Bertram was the able chairman of the evening meeting. He presided in a way that easily won him a place in the hearts and minds of the visitors. His introductory remarks were short, but in them he gave the visitors a royal welcome. He said: "Your visit here gives us a thrill of cheer; a thrill of welcome, that makes us want to throw our arms about you so we may plainly express our feelings, as words cannot be found in which we could thank you for your stay here. Your coming proves a new era—the time has come when cities must cast aside petty jealousies and must learn to love instead of hate competitors."

It is rumored that you have heard of a new Pittsburgh building here and you paid us a visit to see if it is true. I will say that we have enough natural resources here and around us to make you sit up and take notice."

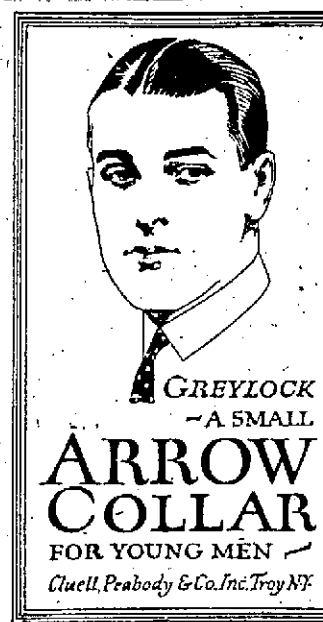

Chairman Bertram then introduced Mayor William Gableman, who made the address of welcome on behalf of the city.

The Mayor said:

Men of Action
Not of Words
"My remarks to you will be quite brief for as business people, I realize that you are men of action rather than words. There may be times when it is well to recall the stranger within our gates with wit or eloquence as befits the occasion but I appreciate that this is not one of them."

You are by instance able to quickly appraise our community, its people and their hospitality at their true worth. If I were to get too fulsome in my greeting or too lavish in my praise of our "Peerless City," you would soon apply the cold analysis of your business judgment upon my words.

For the limited time of your stay among us I would rather that you could be occupied so much as possible in viewing our thriving city and mingling with our hospitable people. Our reputation for both is Nation-wide. We

have a prosperous community with a minimum of poverty and crime for a number of years.

This condition makes for a happy contented citizenship, eager to greet the visitor who may have a message to impart, make his stay pleasant, anticipate his return, or better still to get him to cast his lot with us. I would impress upon you that we are a community of working people, particularly in this generation. It is a standard pleasantries here, that Portsmouth once had a "leisure class" but "he" moved west several years ago.

Your wonderful city at the headwaters of the Ohio has always been a synonym for industry. Perhaps that is why we are generally proud and happy to be included in your literary. Situated upon the same stream with its unlimited possibilities, we feel a common purpose with you. While our territory is smaller and our activities not upon the scale which with you seems so limitless still our hopes and ideals are relatively the same.

The same hospitality of which I spoke has afforded us opportunity to broaden our scope of industrial activities.

We are at the mouth of the fertile Scioto, a productive valley that may well be termed the "Garden Spot of the World." You are upon a mission to still widen the sphere of your commercial activities and we realize that from your successes there will be a reaction for us in absorbing some of your experience and enthusiasm.

In the matter of the Ohio River improvement Portsmouth's interests and efforts have been relatively as great as your city. We are fair enough to

be strong for a large canal to the lakes built along any of the four routes proposed realizing that the one most feasible is bound to insure to the benefit of the entire Ohio Valley, now embarked upon its destined career as the workshop of the world.

So much for the comments upon the material side of your sojourn here. If time permitted we could indulge in many pleasing local sentiments and in ties that bind us to our upriver neighbors. In common with them Portsmouth had a 100 per cent response in all war activities.

We are honored greatly by your presence here today. We have no doubt that you will realize handsomely upon this investment of good cheer you are making—for Pittsburgh has a reputation for getting what it goes after. But most of all we are hoping that as sister cities of the great Ohio Valley our chief dividends may be in mutual good will and esteem.

Mr. Harold Gives
Welcome to Guests

Chairman Bertram in introducing Vallee Harold who made the address of welcome on behalf of the Chamber of Commerce said that Mr. Harold was a native of Illinois but Mr. Harold in opening his remarks took time to explain that he was a native of Missouri and disclaimed Illinois. Mr. Harold in part said: "Gentlemen of the Golden Rule Tourist Party, on behalf of the Chamber of Commerce, representing as it does, 1,500 people from all walks of life in this community, I bid you welcome. I welcome you business men of the metropolis of the Ohio Valley, for you come from that home of the mighty Pirates, that wonderful baseball team of the major leagues."

Applause and cheers greeted these remarks, for the Pittsburghers are justly proud of the record their team is making. Continuing, Mr. Harold said: "We welcome you because you come in this day with a spirit of optimism, you point the way to better days that are sure to come. We welcome you because the waters of the broad Ohio flow by the doors of both cities. Desires has decreed that all must work hard in this workshop of the world and the time is coming when this fertile Ohio Valley will be the heart throbs of the workshop."

"Portsmouth is the best paved city in the United States, more of its people work in proportion to the population than in any other city of this country. It has more homes owned proportionally than the city of Philadelphia, and it is the most thoroughly American city in the United States. Friends, I hope your stay among us will be both pleasant and profitable."

Greeting From

NAMED DIRECTOR OF U. S. CENSUS

William M. Stuart of Michigan was recently named by President Harding to be director of the census.

Pittsburgh Leader

Marcus Rath, President of the Chamber of Commerce of Pittsburgh, was the third speaker of the evening. Mr. Rath is a clothing manufacturer in the Smoky City and in his brief remarks said: "On behalf of the C. of C. of Pittsburgh I bring you thanks for the splendid reception given us this afternoon and evening. Here he took a few minutes to speak of the wonderful wireless telephone which had been demonstrated before he took the floor. Returning to his remarks he said: "It brings to us the realization that times have changed, that greater things are being done to help us accomplish the complex questions of today. Our route was so made up that we could not afford to pass by any town and we see that we did not make a mistake in visiting your fair city. On our trip so far we can plainly see what makes Ohio the great state that she truly is. We come to you with a message of optimism and good cheer. I firmly believe that the time has come for universal peace, so let all be hopeful and helpful." Mr. Rath then spoke of the wonderful growth of the C. of C. of Pittsburgh which has a membership of over 6,000. He also recalled the visit the Pittsburgh business men paid this city eight years ago and again thanked them for the fine treatment given them on that visit.

The chief speaker of the evening was M. Hoke Gottschall, of the Bureau of Statistics and Information, Department of Internal Affairs, an appointee of Governor Sprout.

Mr. Gottschall is a very able speaker and has a manner of delivery that drives home every point to his audience. His remarks were given to many statistics showing how Pittsburgh and Pennsylvania ranks with other cities and states. In opening he said "Ohio from what I learned in school is an Indian name meaning good land, and these two words are fitting today. For our reception has certainly been all of that and more too. The warmth of the reception extended gives us warmth in our hearts. The state of Ohio and the State of Pennsylvania have many things in common."

He spoke of the leading products of Ohio and compared them with the leading products of his home state. He spoke of the need of conservation and reclamation of resources and said that Ohio and Pennsylvania are lead-

ers in the movement to conserve and reclaim. Continuing he said: "In all seriousness let me say that the Ohio Valley, Portsmouth and Pittsburgh is one of material value. You have in this part of the state tremendous natural resources." At this point he explained that the iron ore in the Lake Superior region is giving out and that when the supply there is exhausted that the country would have to look to hanging rocks and this section for its ore supply as the ore in this section has only been touched. "When this time comes, prosperity will be with us in all its glory," said the speaker, who added that both cities have much in common in this respect, also speaking of the waterways to the Great Lakes which both cities are striving for and which will mean much to the Ohio Valley no matter which route is selected.

Mr. Gottschall explained that Pittsburgh is leading in the movement to reclaim things that are gone and along this line spoke of the production and refining of radium in Pittsburgh which supplies 70 percent of the radium used in the world, of the great mills and manufacturing in the Smoky City. He said that the city is not unmindful of the signs of the times and proves this by having fine art and educational schools. He also spoke of Pittsburgh being the home of S. C. Foster, writer of "My Old Kentucky Home" and how Pittsburgh was planning to honor him by building a memorial to him in Kentucky this coming summer.

Compliments the Local C. of C.

The speaker then complimented Portsmouth on its large C. of C. saying that Portsmouth leaves Pittsburgh in the rear when it comes to membership in proportion to population. "He said he was glad to meet so many women taking an interest in such affairs last night, explaining that new interest in business conditions is always reflected in home conditions. The motto of everyone should be "What kind of a town would this be if every person was like myself?"

"When each one has this for his motto, there will come a break in the recklessness of community and you are sure to see a movement towards a betterment. Unless the people of a community take affairs in hand to obtain the best results, they will not be satisfied. Remember there is always darkness before dawn, the reward is just ahead." During the evening the splendid musical numbers were given by the C. of C. quartet of Pittsburgh. The selections included quartet numbers and solo selections by Chauncey Parsons, first tenor, H. H. Mustin, second tenor, and Fred G. Rodgers, baritone. The humorous selections by Mr. Mustin were the hits of the musical program which was concluded with the Pittsburgh tourists singing: Good-bye, old Portsmouth, Farewell to thee. Thanks for your kindness and your courtesy.

See us in Pittsburgh, we'll show you around. We'll have fond memories of old Portsmouth town.

At the close of Mr. Rath's address there was a successful demonstration of the wireless telephone outfit given by a representative of the Westinghouse Electric and Mfg. Co., of Pittsburgh. On the wireless the local audience heard Victrola selections played in Pittsburgh and then an address by Robert Garland, Councilman of Pittsburgh and former C. of C. President. Mr. Garland in his wireless address thanked the citizens and C. of C. of Portsmouth for the hearty reception given the Pittsburgh delegation. He spoke of the enterprise of the people of Portsmouth and the Ohio Valley and how they should work hand in hand for the development of the Valley which in time will mean so much to this section of the country. It was the first wireless demonstration witnessed by Portsmouth persons and it was enjoyed thoroughly.

Auto Trip Is Enjoyed

When the Golden Rule Special arrived Wednesday afternoon a number of local motorists met the visitors and after getting 100 of the visitors into the machines the auto parade moved up Gallia street, passing the N. & W. freight house, Westinghouse shoe factory, over the viaduct, passing the N. & W. yards and shops, the Whitaker-Glessner steel plant, Portsmouth Solvay Coke plant, Carlyle and Harbison-Walker brick plants and the C. & O. N. bridge. The eastern point was Sciotoville and the machines returned to the city. Some of the visitors wanted to visit the stores and were driven to the business section while others were taken on a tour of the Hilltop and out the Scioto Trail.

The finest railroad train in the world embracing the latest masterpieces of the car-builder's craft in all-steel coaches and drawn by the largest and most modern type of passenger locomotives is chartered for the 925 mile trip by the trade extension committee of the Chamber of Commerce of Pittsburgh. In its equipment the golden rule special provides its passengers with every requisite for comfort and convenience. To alight the train as a "hotel on wheels" would be a misnomer—few hotels are as comfortable and none are as homelike as this wonderful train of twelve luxurious cars. In very detail it is typical of the great city from which it starts forth.

The N. & W. handled the C. of C. special to Ironton at 6:50 this morning. After a stop of an hour there the special goes to Xenia, where it will be taken over by the C. & O. for stops in Huntington and Charleston.

The NEW LIGHT-SIX now holds the five most important automobile road records on the Pacific Coast, a remarkable feature being that all the honors were won by the same car, a stock touring car, within ten weeks

1. Yosemite National Park. A Studebaker LIGHT-SIX, piloted by Hart L. Weaver and carrying a crew of five men from the Chester N. Weaver Company, was the first automobile to reach the Yosemite National Park over any one of the three snow covered roads under its own power this year. The car went over the narrow and dangerous Coulterville road, bucking snow as deep as ten feet in some places, arriving in Yosemite Valley, January 16.

2. Round Trip Record Between San Francisco and Los Angeles. On February 2 the same car, driven by Hart L. Weaver and James F. Gurley of the Chester N. Weaver Company, established a new round trip record between San Francisco and Los Angeles, a distance of 864.8 miles, in the sensational time of 21 hours and 23 minutes.

3. Coast Route Record from San Francisco to Los Angeles. On the round trip record of February 2 the Studebaker LIGHT-SIX lowered the coast route record from San Francisco to Los Angeles by 2 hours, 35 minutes and 20 seconds. The former record was 12 hours, 47 minutes and 50 seconds, the time of the Studebaker LIGHT-SIX being 10 hours, 12 minutes and 30 seconds for the distance of 453.7 miles. The pilots were Hart L. Weaver and James F. Gurley.

4. Valley Route Record Between Los Angeles and San Francisco. On February 24 the Studebaker LIGHT-SIX smashed the valley route record between Los Angeles and San Francisco, running the distance of 411.1 miles in the remarkable time of 9 hours, 15 minutes and 50 seconds. This record was made all the more remarkable on account of the car having to go through a dense fog a distance of more than 100 miles between Tulare and Merced. The pilots were Hart L. Weaver and James F. Gurley.

5. Los Angeles—Phoenix Record. On the morning of March 23 the LIGHT-SIX left Los Angeles in an attempt to lower the fifth and only remaining record of consequence on the Pacific Coast. The 422 miles of desert trail from Los Angeles to Phoenix were made in 13 hours 16 minutes, and 2 hours 28 minutes were taken from the best previous automobile record. The railroad time is 14 hours 20 minutes, or 1 hour 4 minutes slower than the record established by the LIGHT-SIX.

Hart L. Weaver of the Chester N. Weaver Company, Studebaker Distributors in San Francisco, made the following statement after the completion of the Los Angeles-Phoenix run:

"These tests have demonstrated on the road everything that Studebaker engineers have claimed for the new LIGHT-SIX-cylinder car. When it is remembered that the bore and stroke of this car is only 3 1/2 x 4 1/2, giving it a piston displacement of 207 cubic inches, and that the car fully equipped only weighs 2500 pounds, these records are all the more remarkable since most of them were formerly held by heavier cars costing much more than the Studebaker LIGHT-SIX. I am inclined to believe that the secret of this car's wonderful performance, and roadability is due in a very large measure to its remarkable balance. Halved or quartered the parts of the new LIGHT-SIX would weigh approximately the same."

"In making the Los Angeles-Phoenix record I am frank to confess that despite my faith in the stamina of Studebaker automobiles I could not believe that any car could make the speed over that desert road with its ruts and chuck holes that was necessary in order to lower the record by a large margin without falling to pieces. Any automobile, irrespective of weight, power or price class that can lower the record established by the Studebaker LIGHT-SIX will have my most sincere admiration."

HOMEOPATHS WILL REPLY TO CARNEGIE FOUNDATION CHARGES

COLUMBUS, O., May 12.—Aroused by the report of the Carnegie Foundation for the advancement of teaching, which was said to be unfavorable to the Homeopathic Medical College at Ohio State University, the Ohio Homeopathic Society, in session here today, appointed a committee of three to answer the Carnegie charges.

The Carnegie report asserts that both the Homeopathic and Allopathic Colleges of Medicine at the University are inadequately supported and takes a general stand against the practice of Homeopathy.

Dr. Claude E. Burritt, of the Homeopathic College at Ohio State, heads the committee which will draft the reply.

Next year's meeting will be held in Columbus, it was decided at the closing sessions today.

The boys in the Haverhill Pig Club are Joseph Boynton, Jr., President; Charles Ault, Secretary; Ben Brush, Stanley Kitts, Bennie Snielzer, Elba Davidson, George Little, Fred Boynton, Oliver Doty, James Smedecor, Louis Hyland and James Stewart. Charles Brush is leader of this club.

The boys at Minford met Tuesday evening and elected the following officers—President Hiram Moore; Vice Pres., John Carr; Secretary Edward Buse. Entertainment Committee Ernest Moore, Paul Helt and Gerald Knore. The other boys in this club are Myrl Rice, Delmar White, Lester Klunker, Ralph Helt, Howard Frowine, Herman Knore, Earl V. Bennett, Earl Giles, Eldon Deemer, Howard Bennett and Raymond Coriell. William Knore was chosen as club leader.

At a recent meeting of the Food

Club girls at Haverhill the following officers were elected—President Frances Ault; Vice-President, Margaret Davidson; Secretary, Elizabeth Gruff; Assistant Secretary, Lillian Oakes; Treasurer Gladys Seelye. The other girls in this club are Arvanel Brush, Pearl Seelye, Edna Seelye, Pauline Eichler, Dorothy Birch, Clouline Hyne, Darline Weaver and Anabel Kitts. The Club will be known as the Sunshine Canning Club with Miss Helen Butterfield Club Leader. Six of the above girls have done two year's club work. They are looking forward to a big year in club work.

A Food Club meeting will be held at the home of Mr. and Mrs. Hayes Coriell Thursday morning to organize and elect officers for the club in that community. The afternoon of the

Autos Damaged In Collision

Frank Kinney's touring car and a Ford owned by John Holmes of 1203 Gay street collided about 11:30 Tuesday night in front of the Homer Kinney home, 1414 Fourth street.

machine standing by the curb.

The driver of the Ford and a woman companion got out of the machine and walked east on Fourth street while Mr. Kinney was busy with his damaged machine.

This morning Mr. Kinney succeeded

in getting the Ford out of the

street and moved it to the garage.

How would you find the best Phonograph?

Suppose that tomorrow you were going to buy a phonograph.

How would you go about it?

You probably have a preference, gained through reading advertisements and hearing the instruments of friends. But it's a pretty vague preference, isn't it? No foundation in real fact.

Would you phone an order for that phonograph? No, you'd probably decide you ought to hear several other phonographs first. But as you'd hear demonstration after demonstration, you'd experience ever-growing doubt and confusion.

Then finally you'd bethink yourself of our Edison Turn-Table Comparison—and you'd wonder why you ever bothered to match claims against claims, when here was a way to match music against music, and decide for yourself which is the best phonograph.

The beautiful surety and simplicity of our Edison Turn-Table Comparison never strikes people so forcibly as when they actually try to decide on a phonograph. It is the only scientific comparison in town,—the only way in which you can hear the four leading phonographs play in the same room, from the same position, using recordings by the same artist.

Why not hear it today? No obligation! A free service given in the spirit of service. Just ask for the Edison Turn-Table Comparison (given only on request).

Change On C. & O.

The Huntington Herald Dispatch Thursday said:

"Effective this morning, train No. 6 of the Chesapeake & Ohio Railway Company will connect with train No. 6 of the Virginian railroad at Deepwater, W. Va. It was announced here yesterday.

"Heretofore there has been no connection at Deepwater of this nature. The new order will permit travelers to leave Huntington at 10:35 a. m. and catch a local train out of Deepwater, on the Virginian line at 2 p. m. The latter train is a local running between Deepwater and Preston. It will return to Deepwater every evening.

Pensions have recently been granted under the Sells law for Spanish War soldiers to John O'Malley and Catherine Pratt, minor, the latter under the guardianship of her mother, Mrs. Bertha Tomney.

Former Jackson Man Dies

Mrs. T. J. Edwards received word on Tuesday evening of the death in Marion of her brother, William A. Longhough who passed away at three o'clock that afternoon, having suffered a second stroke about three hours before. The first stroke occurred several years ago and he had been an invalid all this time. Mr. Longhough was a teacher in the Jackson schools years ago, having been born and raised here. Later he lived in Cincinnati. The latter years had been spent in Marion.

D. A. R.

Mrs. A. L. Ervin was the hostess to the May meeting of the D. A. R. Her assistant was Mesdames S. E. Stephenson and Ira Stephenson. Mrs. A. C. Messenger of Xenia who is a prominent D. A. An enthusiastic campaign is on for the school bond issue. Every effort is being put forth to make the subject popular and it is hoped there will be an overwhelming vote in favor of it. The school children are expected to march on next Tuesday and carry a banner being displayed by the Chamber of Commerce urging the people to vote.

The Parent-Teacher's Association is pushing the matter with hard work and energy.

Church News

The special drive made by the Christian church on last Sunday resulted in an attendance of 704. Bibles were given to 170 mothers. Tickets were given out to those in attendance for a picture show on Monday night, which resulted in a crowded house on that night. The market held by the Ladies of the Ladies Aid Society on Saturday netted them about \$40. It was held in connection with the Tanager held by the class known as the Daughters of Ruth. The proceeds of the Bazaar sale amounted to nearly \$75.

Mrs. Sam Lake was hostess to the monthly meeting of the Ladies Aid on last Friday night. Her assistants were Mesdames Rachel Mercer, Ella Howells, and John Jacobs. After the usual business was transacted, refreshments were served.

The Missionary Society will meet on Friday evening with Mrs. William Greene.

The Westminster Guild of the Presbyterian church will meet on Friday at the home of Mrs. Harry Grace on Pearl street. It will be in the nature of a spread as it is the last meeting for the summer.

On next Sunday morning at the Methodist church, the Men's class will have with them G. W. C. Perry, editor of the Scioto Gazette, who will address the class.

At the meeting of the Young Ladies Missionary Society of the Methodist church on Tuesday evening at the home of Mrs. Fred Baesman, she was assisted by Mesdames Nial McDonald, Luther Powell and Cliff Evans. The

program for the evening was composed of Reading by Mrs. H. Shumate, Piano solo, Hester Booth; Reading, Miss Sadie Harrell; Piano solo, Miss Minnie Farrar; Reading, Mrs. Frank Stevens. At the close refreshments of ice cream and cake were served, during which Victrola music was rendered. The next meeting will be held with Mrs. Theodore White.

Chamber of Commerce Banquet. On next Friday evening the Chamber of Commerce will hold a banquet at the Cambrian. The speech of the occasion will be given by Mr. Kenyon Middle, city manager of Middletown, Ohio, on the subject of "The City of the Future."

Our well known Center Caves has been converted into what will be known as Jackson Lake Park and be

opened on Sunday. The Miller brothers who own it have made many improvements. Swings and a self-propelling merry-go-round have been installed. The pavilion painted and a general clean-up has improved the grounds. The road has been improved and is in good shape.

Jackson's band will give a concert at South Webster at the High School auditorium on next Friday night. New members have been added to the band, Hester Stephenson, Bass Viol, Frank Branson, tuba, Gene Welsh, first cornet, Dale Jackson, alto.

Take Any Group of Men

No matter who or where they are, the Walk-Over store can fit each man's feet with exactly the right shape of shoe. There is a Walk-Over made for you

AN OXFORD FOR MEN WHO MUST WEAR A COMFORT SHOE

This oxford is the best of its kind that has ever been made. It is a combination last which means that the toe construction is wide while the heel is narrow. The narrow heel is wide at the bottom and narrow at the top near the ankle. So accurate is the fitting that this oxford could be worn without lacing and the heel would not slip out. The fit around the instep is close and gives a bracing effect. In all leathers with or without rubber heels.

Where Walk-Overs Make Good

Any Walk-Over, put to a style test, shows up in great shape. You go to a Walk-Over store and you are looking for a shoe with comfort and good looks—the most for your money. And the Walk-Over store delivers all that to you with a liberal hand.

What Portsmouth Owners Have To Say About Them

May 10th, 1921

Johnson Bros.
White Truck Agency,
Portsmouth, Ohio
Dear Sirs:

In answer to your inquiry of today, we are pleased to say the three and one-half ton White truck you delivered to us April 27th, 1920, has been very satisfactory.

At present we are making three trips per day of twenty-four hours to Wamsley, Ohio, hauling lumber, total mileage per day 180, total feet of lumber per day 7500.

When we need further equipment we surely will consider "White."

Very Truly Yours,

Dear Sirs:

In answer to yours of the 8th, I beg to say, I am entirely satisfied with the two ton White truck I purchased in February. It has an abundance of power and is very economical on fuel.

I further like the way you keep in touch with your trucks after they are delivered.

Yours Very Truly,

Dear Sirs:

In answer to yours of the 8th, in regard to the two ton White truck delivered to me December 5th, 1920, I have found this truck to exceed your representation in performance and economy, especially is this true in gasoline consumption.

I have had no occasion to use your service but one of the deciding factors in my buying White equipment was, you were prepared in parts and tools to render efficient service.

Yours Truly

Johnson Bros.
White Truck Agency,
Portsmouth, Ohio
Dear Sirs:

Complying with your request we are very glad to state that our experience, since 1904, with White products, has been very satisfactory. It is our opinion that for quality of materials and workmanship they have no superior.

Our last purchase, a two ton truck, has been in operation since March, 1920, giving perfect service, with practically no upkeep.

Very truly yours,

Gentlemen:

In answer to yours of the 9th, we beg to say we have used the White truck, model twenty, two tons, about two years, and have found it very economical. It has been in service every day, and while the work does not consist of long hauls, we have not had to put it in the repair shop, so that it has practically done the work each day during this time.

Were we to buy another truck, we could not be consistent and buy any other make than the White.

Yours very truly,

Gentlemen:

In answer to your letter of the 6th instant, we are glad to express our appreciation of the "Good Service" rendered The Pure Oil Company, at your Service Station when the occasion required. We are frank to state, however, our repairs on White Trucks have been conspicuous by their absence.

You have fully lived up to your statements in keeping all repairs that usually are needed and your promise to us has been more than fulfilled.

Gentlemen:

Relative to our experience with White trucks, we beg to advise that we are using five of your five ton capacity, dump trucks, they have now been in continuous service for more than 5 years, doing hard service.

Our experience on repairs and economy of operation has been so favorable that we have decided to standardize on Whites.

Yours very truly,
THE S. MONROE & SON CO.

Gentlemen:

In reply to yours of even date, I am pleased to state that the two ton White truck we purchased March 29th, 1920, has given us one hundred per cent service and cost of maintenance has been very small.

The service rendered by your service department has always been prompt and satisfactory, and we have always found any parts needed in stock at all times.

Very truly yours,

Dear Sirs:

In answer to your inquiry of today, we are pleased to say the White truck we recently purchased of you is all we expected, and has proven very satisfactory both in city and rural work by test.

Besides the reputation of the White truck the deciding factor in the purchasing of a truck was the service behind it.

Yours very truly,

Gentlemen:

In reply to your inquiry of the 8th inst., we are glad to say that we have had two White trucks in service two years and one in service one year.

We have had very little repairs, and what has been done have had quick service rendered and at a very reasonable price.

We hold the White truck in very high esteem indeed and the service that you have given us.

Yours truly,

Gentlemen:

Replying to your personal inquiry thru our Mr. W. E. Ruhlman as to our experience with White trucks.

On February 5th, 1913, we purchased a one and one-half ton White truck which we used. This truck, in our opinion, was one of the best ever operated in this city. During the time that the street, at the Whitaker-Glessner Co. was torn up for repairs, we continued to make deliveries of heavy materials to that plant and, in every other way, subjected this truck to as hard usage as it was possible to do and yet it never faltered.

April 5th, 1917, we purchased a two and one-half ton truck, which has given excellent service to date.

In conclusion we desire to say that we are entirely satisfied with the service given us by White trucks and we still believe that the White is second to none.

Yours truly,

Gentlemen:

In answer to your inquiry of recent date with regard to the two ton White you delivered me October 6th, 1919, I beg to say same has been very satisfactory. I am using it in hauling meats from Piketon, Ohio to Portsmouth, Ohio, and have gone thru two winters of very bad road conditions. Performance and economy have sold me on White trucks.

I could not be fair and not commend the service you render on same.

Yours very truly,

HEALTH EXPERT HERE TO EXPLAIN NEW THEORIES FOR HELP OF SICK FOLK

Fresh for an overturning of popular prejudices in health matters in Columbus, "The Voia-Tonic Man," a young health expert of original theories, arrived in Portsmouth today. This young man created a veritable furor in Columbus and vicinity by what he calls his "Common Sense Health Talks" which have been published from day to day in the newspapers of the capital city. He is introducing a new form of medical treatment and his success in Columbus has been little short of phenomenal. It is estimated that in a period of 60 days in Columbus nearly 5,000 persons have taken the new Voia-Tonic treatment. Literally hundreds of testimonials from the most prominent local people have been published in the newspapers.

The young "Voia-Tonic Man" declares there has always been too much mystery about medical treatment and that he intends to expose many of its so-called secrets. In a statement for publication yesterday, he said: "Common sense in medical matters is about the most uncommon thing there is," he said. "Most people who feel the least bit ill are too apt to think their case is much worse than it really is. If they feel run down and out of sorts they start dosing themselves with a different kind of medicine for every pain or ache they feel.

"If they have a pain in the back they think it is their kidneys, and take a kidney medicine. If their nerves are on edge and they can't sleep at night they take a 'nervine medicine.' If they are constipated they take harsh cathartic pills. If they have dizzy spells or shortness of breath and palpitation of the heart they take heart medicine—and so on.

"This is entirely wrong. It is only treating the symptoms and never results in a real cure. We must go to the root of the matter and treat the real, underlying cause of all the trouble.

A STRONG STATEMENT
"Ninety-five per cent of all ill health is directly or indirectly due to malassimilation of food in the stomach and intestines. I realize that this sounds like a strong statement, but it is a strong statement, yet I have the best of medical authority to back me for the assertion. I refer to the late Professor Metchnikoff, president of the Pasteur Institute of Paris, France, one of the greatest physicians and scientists who ever lived. He called it 'stomachic and intestinal toxemia,' but it means the same thing.

"I have a treatment which is designed to relieve these ninety-five per cent of all ailments by restoring health to normal. It has had wonderful success as a prescription, but in order that it be made available for thousands and millions of people at a moderate price it has been necessary to put it out as a proprietary medicine. A large corporation has been formed by Ohio druggists of the highest standing, who know of the merits of this remedy, and I am here in Portsmouth to introduce it in person to those who are sick and ailing. We call it the Voia-patetic treatment.

"The medicine acts directly on the stomach, and the first effect felt is a splendid improvement in the appetite. People who have always felt a dull, heavy, draggy sensation after a meal, with a tendency toward sleepiness, find it disappears almost immediately after taking this Voia-patetic treatment. People who feel nervous and restless all the time, who have been losing flesh and strength—who feel just half-sick—are astonished at their quick restoration to health and the brimming vitality that is theirs as soon as their stomach and bowels are restored to normal.

TO MEET PUBLIC IN PERSON
"I want to meet personally every man and woman in Portsmouth and vicinity who is run-down, weak, nervous and 'all out of sorts.' I want to shake hands with them and tell them there is hope for them. It makes no difference how many other medicines they may have tried—it makes no difference what treatment or 'cures' they may have experimented with—this Voia-patetic treatment is something entirely new, based on a new principle, and is well worth trying. I cannot say the Voia-patetic treatment will cure your trouble—no man who is honest could make such a promise—but I do say that it cannot harm you, being a purely vegetable compound, and that of it does not help you more than any medicine you ever look before it will not cost you a single penny.

"I am making my headquarters at Fisher and Streich's drug store where I will meet the public daily, every morning and afternoon, and until 5:00 o'clock in the evening, Saturday. If this Voia-patetic treatment will help you, in my opinion, I will tell you so frankly. But if you do decide to try this medicine and if it does not do for you, everything you expect of it, if for any reason whatsoever you are dissatisfied, all you have to do is bring back the empty bottles, say you are dissatisfied, and you will be handed back your money without quibble or question. Could any proposition be fairer than that?" —adv.

Surveyors Discuss Highway Law

County Surveyor Arthur Harwood has returned from Chillicothe, where he attended a meeting of county surveyors, called for the purpose of discussing the state highway law which becomes effective next August.

The new law redivides the state and Scioto county is placed in a district of eleven counties which includes Athens, Gallia, Hickman, Jackson, Lawrence, Meigs, Pickaway, Pike, Ross and Vinton.

The meeting was addressed by John W. Graham, first division engineer for the district in which he pointed out the salient points of the new law and urged the surveyors the importance of making repair work and to give preference to local material in all construction work when such material was available. He also referred to charges made in certain quarters that road work was taking it too easy in other words loafing on the job, and he declared the necessity to prod up such workers and get eight hours of real work every day.

Firemen Make Record Runs

The fire companies gave splendid exhibitions of speed in demonstrations made Wednesday night in celebration of Safety Week. The seventh street company glided over to the Gallia residence in 56 seconds and in one minute and 50 seconds was throwing water from one line, while the Gallia street company made the run to the same place in one minute and forty seconds and in two minutes and thirty-five seconds had two streams ready for action. The Hilltop company supplied at the Gallia street station, while the latter made its run, and then tried its speed, making the run to the explanade in one minute and twenty-five seconds with chemical hose at top of ladder.

The demonstrations were witnessed by a big crowd and the ladders were roundly applauded for their fast work. Pulmotor and aerial demonstrations were given by the companies Thursday afternoon, and Safety Week will come to a close by receiving visitors at all fire stations on Friday and Saturday.

Ingrown Nail Will Turn Out

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrown nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it cannot penetrate the flesh, and the nail turns naturally outward almost overnight.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.—adv.

Wage Cut For Toledo Carmen Is Expected

TOLEDO, O., May 12.—Conference between the Community Traction Company, which operates the Toledo street car lines, and its platform men were resumed here today after a deadlock lasting more than two weeks.

Edward McCormack, international organizer, who averted a strike in Detroit recently, was expected to take part in the conference here.

It was pointed out by company officials today that the decision of the men in Cleveland and Detroit to accept wage reductions of 20 per cent. probably will have an effect here.

Several weeks ago the company made a proposition to reduce the wage from 60 to 48 cents an hour. The men rejected the offer. It was said officially today that the 20 per cent. reduction will be put in effect.

The question of abolishing the customary two weeks vacation also entered into the discussion.

The local street car lines are operated under a service-at-cost ordinance with the deficit for the first three months of such control being \$204,305.

Tackling Big Problems.

You never can measure up to a big problem as long as your mind's on yourself. The very bigness of great challenges reveals the caliber of men. The small chap is so overwhelmed that he loses his self-control and ability to do. The big man is steeled when confronted with tasks beyond the average. He knows that more than the usual strength and wisdom is needed and steadies himself for the task. He is none the less conscious of the tremendous interests at stake because he does not tremble. In fact, he may be all aglow inside, but he is master of himself he conceals how bravely he feels the situation.

SOUR STOMACH INDIGESTION

Theford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Theford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught Liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's. E. S.

Work That Is a Pleasure.
If one wants enough to complete a definite piece of work, be it poem, essay, story or some far more definite and prosaic task, I have found that it gets itself done in spite of the insistent pressure of other businesses and the deadening monotony of heavy routine, simply because one goes back to it with delight, schemes to clear time for it, waits for it round corners, and loses no time in spurting and whipping the mind to work, which is necessary in the cases of less attractive tasks. The moment that there comes a leisurely gap, the mind closes on the beloved work like a limpet; when this happens day after day and week after week, the accumulations become prodigious.—A. C. MR. BRYAN WILL ARRIVE AT NOON MONDAY

According to a telegram received by Rev. E. H. Dailley, Hon. William Jennings Bryan will arrive in Portsmouth from Chicago on the noon train next Monday, May 16th, to fill the lecture engagement at the United Brethren church at eight o'clock in the evening.

The message further states that the noted lecturer will leave on the night train for Charleston, W. Va., and that local arrangements for his time while in Portsmouth will be in charge of Mr. Dailley. Already plans have been made for practically his entire time with the exception of brief periods for rest shortly after his arrival and just previous to the lecture in the evening.

Later, a complete schedule of the Great Communion's Portsmouth program will appear in these columns but following can be definitely announced at this time: Shortly after his arrival he will be escorted to the high school where he will make a brief talk to high school students only. Later in the afternoon, a small committee of citizens will accompany Mr. Bryan on a sight-seeing tour of Portsmouth and vicinity, and Mrs. E. H. Dailley will entertain with an afternoon tea and musical. Mr. Bryan will also be the honor guest at the Chamber of Commerce luncheon in the church dining-room at six o'clock and will make a brief talk on some topic of current interest.

At eight o'clock, in the spacious United Brethren church, the distinguished visitor will make his first public appearance before a Portsmouth audience when he will deliver his most recent lecture, "Brother or

Senator France Is Going to Russia to "See For Himself"

BALTIMORE, MD., May 12.—Determined to make his own first hand investigation of current political and industrial conditions in Soviet Russia, United States Senator Joseph I. France of Maryland, is to sail for England May 24, and thence proceed to Moscow as promptly as possible.

Senator France will have been the first American official of prominence to visit Russia since the Bolsheviks came into control. The last important inquiry was that of the Root Mission, while Kerensky was still at the head of the government.

Senator France, it is expected, will be extended extraordinary facilities for his study of conditions. Of all Americans in public life, he probably has been the most active in his insistence that this country should resume promptly trade relations with Russia.

In the senate he made a spirited effort to accomplish this, but without success. He has avoided expressing approval of the Bolshevik program either as originally advanced or as amended of late, but contends that the resumption of trade is a matter of need not only to Russia, but in this country and the world at large.

As against this need, he declares the political situation is of minor importance.

NUTRATED IRON

Helps make rich, red blood and revitalizes weak nerves

WEAK NERVES AND THIN BLOOD

RUIN HEALTH OF THOUSANDS WITHOUT THEIR EVER SUSPECTING THE REAL CAUSE OF THEIR TROUBLE—IRON STARVATION

An enormous number of people who ought to be strong, vigorous and in the prime of life are constantly complaining of weak nerves, headaches, pains across the back, disturbed digestion, shortness of breath, palpitation of the heart, a general "run-down" condition, melancholy, bad memory, etc., all as a result of iron starvation of the blood.

There are 30,000,000,000 red blood corpuscles in your blood and each one must have iron. Without iron your blood also loses its power to change food into living cells and tissue, and nothing you eat does you the proper amount of good—you do not get the full strength out of it and as a consequence you become greatly weakened both in body and mind.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach, because it is organic from like the iron in your blood and like the iron in spinach, lentils and apples and not metallic iron which people usually take. Your money will be refunded by the manufacturer if you do not obtain satisfactory results. Beware of substitutes. Look for the word "Nuxated" on every package and the letters N. I. on every tablet. Sold by all druggists.—Adv.

Plan For Anniversary

Plans for a celebration that will in every way be fitting to the anniversary of the founding of the order were discussed at last night's meeting of St. Joseph's Court, Catholic Order of Foresters. The celebration will be in Jen Hur Hall Wednesday, June 8, this anniversary being the 35th, as the order was given birth in Chicago in 1881. The preliminary plans call for a program of music and short addresses, to be followed by cards and dancing.

Pythian Sisters Meet

The weekly meeting of the Pythian Sisters will be held tonight in their hall, Fourth and Washington streets. Applications will be acted upon at this session.

Inspection Tonight

Annual inspection of M. Vernon Chapter, Royal Arch Masons, will be made tonight by W. H. Kelley of Weston, one of the best known Masons in Ohio. The inspection will be at 6 o'clock, old time. Degree work on several candidates will be followed by a banquet in the lodge banquet hall. Many visitors are expected here for the meeting and inspection, which will be attended by several hundred Masons.

Applications Balloted On

Wednesday night, at the regular meeting of the Portsmouth Lodge of Elks, several applications for membership were favorably acted upon. Plans were made for degree work at the next session.

Royal Neighbors Meet

The regular meeting of Delta Camp, The regular meeting of Delta Camp, will be held tonight in their hall, Fourth and Washington streets. Applications will be acted upon at this session.

GOOD Cooks sometimes cause as much INDIGESTION as BAD Cooks. Just SO with other people. A GOOD man often neglects to SAVE REGULARLY, just as a BAD man does. HE should have known better.

SHE PLEADS FOR
MORE POLICEWOMEN

Mrs. Mina C. Van Winkle.

Although more than 300 American municipalities employ the services of women police officers, Lieut. Mina C. Van Winkle, Washington police officer, who is president of the International Association of Policewomen, recently made a strong plea for more effective governmental interest in this phase of corrective and protective work. "Women should work from a central agency and under the direction of a woman," according to Lieut. Van Winkle.

SOCIETY

The Biscove Choir will hold its final rehearsal tonight at 7:30, new time, in preparation of the special song service on Sunday evening.

At that time the church will welcome back Miss Bertha Staiger, who has been enjoying a vacation. Many outside the church enjoy her lovely voice and will take great interest in her solo, "Deep River," by Burleigh, which will be only one of the many beautiful old, southern songs to be included in the program. Rev. C. E. Chandler, in a brief talk, will tell the emotions of the south and the origin of the appealing southern spiritual songs. "Nobody Knows the Trouble I've Seen" is another solo, which will be sung by Mrs. Fred Winter, and a male quartette will sing "Swing Low, Sweet Chariot." A mixed quartette, with Watson Goddard soloist, will sing "Old Black Joe." The choruses will sing "Massa Dear" from the Old World Symphony, and the entire program will be a novel deviation from the usual sacred song service.

Miss Sadie Shively has resigned her position as stenographer in Judge W. R. Sprague's office.

Mrs. B. P. Pray Brunell of Louisville, Ky., is the guest of local relatives and friends.

Mrs. E. T. Reed of Seventh street, who has been in the east for the past two weeks, is expected home the latter part of the week, after a brief visit with her son-in-law and daughter, Dr. and Mrs. Calvin Fox (Reynolds), who are now in Philadelphia from their honeymoon.

On her way to Cincinnati, Mrs. Frank B. Pratt of Ironton visited friends in Portsmouth, Wednesday.

The East Portsmouth W. C. T. U. will meet Friday afternoon, at 1:30, with Mrs. George Swably, 1406 Franklin avenue. The assistants will be Mrs. Charles Swably, Mrs. Walter Norris, Mrs. Charles Beckman, Mrs. Henry Prior. All members are urged to come for important business.

Mrs. George E. Thomas of Waller street is visiting in Cincinnati for a few days.

Mrs. Joseph Alexander and children of Richmond, Va., who are visiting with relatives here, spent today with relatives in Chillicothe.

Mrs. Roy Mason of Ironton is visiting her sister, Mrs. John Thompson of this city.

Miss Agnes Wood of Greenup has returned from a visit to friends in Ironton.

The members of Mrs. Isabel Thomas' class of Second Presbyterian Church enjoyed an interesting evening with Mrs. John E. Williams Monday.

Mrs. Williams told of the trip into the Orient which he and Mrs. Williams took, and solos by Mrs. James Williams, with readings by Miss Margaret Thiers, added much to the evening's entertainment.

Miss Mildred Dunn of Offense street has returned from a brief visit in Columbus.

Miss Ada McCall of Sixth street, is home from Columbus, where she accompanied her sister, Miss Nell McCall, who recently submitted to a surgical operation at Grant Hospital.

Miss Nell McCall is planning to go to Cleveland after her recovery to visit with her sisters, Mrs. William Tinsley and Mrs. Paul Bailey.

Nature's Workings.

How plants absorb nitrogen from the soil is utterly unknown. No animal must get the large quantities of nitrogen that are necessary to it by using plants for food. When the animal or the plant dies the constituents of its body are returned to the earth, where the bacteria of putrefaction break up the elaborate organic chemical compounds upon which the plants again can feed.

NINETY-YEAR-OLD CO-ED SAYS STUDY KEEPS HER YOUNG

Mrs. Amy Davis Winship.

Mrs. Amy Davis Winship, 90 years old, has found a new fountain of youth. She never had time to get a college education until she was 79 and so she has been going to school ever since. She has decided that by continuing to be a schoolgirl she is able to really enjoy life as she did at 20, and so she has just entered another application for summer school attendance at Wisconsin university.

VULCAN LAST COMPANY SELLS ORDER TO COMPANY IN POLAND

Up-to-date American style shoes will grace the feet of the ladies of Poland, likewise the feet of the men and the children of that country, and it is progressive Portsmouth again to the front in making this a possibility. Martin Sobola, of Poland, representing a large shoe manufacturing company of his native land, was in this city this week and before he departed left a generous sized order with the Vulcan Last Company for an assortment of their latest style lasts.

The sale was made in competition with other of the big last makers of the country, and is another evidence that the local company is a second to none in quality of output.

This is not by any means the first foreign order received by the local last company. They have already shipped three orders to Bombay, and made a second shipment to a number of other foreign countries.

Added interest is given to these orders coming from such distant points, as it shows not only is business reviving the world over, but that foreign countries are recognizing that they must come to America for the latest ideas in manufacturing. Mr. Sobola stated that while in this country he would place orders for a complete line of lasts, dies, patterns and machinery for making shoes.

COURT HOUSE

Suit In Partition
A suit to partition real estate consisting of Lot 17 in the Portsmouth Real Estate company addition, left of the estate of F. E. Duhon, Sr., who died July 4, 1909, was instituted in Common Pleas court Thursday by Lila Duhon against Mary Catherine Duhon and Isabelle Duhon, minors, and Frank E. Duhon, Jr., guardian. The property involved was disposed

of by the decedent under his will admitted to probate and the plaintiff given a three-fifths interest in the premises as legatees. The plaintiff further asks that the property be sold and the proceeds divided among the parties as they may be found entitled thereto. The suit was filed through Attorneys E. G. Millar, Sherrard Johnson and S. A. Skelton.

Evans On Trial

Millard Evans, West End teamster, was placed on trial before Judge Thomas and a jury in Common Pleas court Thursday on a charge of shooting with intent to kill Hugh Callihan, also a teamster, both of whom were employed by Frank Seymore, contractor.

The shooting occurred at the old Interstate barn on West Fifth street on March 19, following an altercation between the men.

Little trouble was experienced in selecting a jury to hear the case and in their statements to the jury Prosecutor Sheppard for the state claimed that the accused precipitated the trouble and was the aggressor and that Callihan was shot without just cause, while Judge Blair contended that Callihan assaulted Evans with a club and that the shot was fired with reasonable excuse and in his proper self-defense.

Den Neighbors and Robert Smith, co-witnesses, were the chief witnesses called by the state. They stated that the trouble started in the barn office when Evans asked Callihan about alleged threats to whip him and that a scuffle ensued which resulted in the two men reaching through the office door into the driveway, where both went to the ground. On getting up, Callihan, seized a club and struck Evans and was in the act of striking another time when the latter pulled his gun and fired, the bullet wounding Callihan in the right side, but not seriously, the witnesses said.

Other witnesses called by the state were Dr. S. S. Haldeman, Chief District Officer Stanley Schroeder and Callihan, the complainant.

Seeks Damages To Auto

An echo of a collision between automobiles which occurred near the intersection of Seloto Trail and Kinney's Lane several days ago came in Municipal court Thursday when Henry Vardon brought action against Jacob J. Gehres seeking \$150 damages to his machine.

In his petition filed through Attorneys Purdum and McCall the plaintiff claims he had the right of way and alleges negligence and want of ordinary care on the part of the defendant in driving his machine and in failing to keep a lookout for approaching vehicles.

Fremont Charged Plea

When Albert Fremont, 19 years old, New Boston, indicted on a charge of grand larceny, appeared in Common Pleas court Thursday he was permitted to change his plea from not guilty to guilty of the lesser offense of petit larceny.

The charge grew out of the burglary of auto tires from the C. J. Daniels garage at Selotville early last March but on the showing that the accused did not participate in the crime and took no part in the planning, and as this was his first offense, having previously been in no trouble, Judge Thomas passed him a fine of \$25 and costs, and suspended the fine pending good behavior.

Attorneys Blair and Blair represented the defendant. Three others were implicated in the burglary and the stolen property was recovered.

NATIONAL HOSPITAL DAY OBSERVED; MANY VISIT LOCAL INSTITUTIONS

Today, May 12, is the anniversary of the birth of Florence Nightingale, founder of the nursing profession and in her honor National Hospital Day is being observed throughout the nation. In this city the new Schirman, Hemstead and Selby shoe factory hospitals, held open house, these institutions being open for inspection.

Verdict For Plaintiff

After deliberating nearly two hours the jury in the case of Thomas Nichols against W. R. Ewing returned a verdict in Common Pleas court Thursday morning, finding in favor of the plaintiff in the sum of \$348.

The case grew out of a collision between the automobiles of the parties at Fifth and Brown streets in November, 1919, the plaintiff suing on a claim amounting to \$432.80 damages to his car. The case was tried last September and the jury awarded the plaintiff \$207 which was set aside by the court in granting a new trial.

Attorney B. F. Kimble for plaintiff and Attorneys Blair and Blair for Ewing, who is at the head of the safety department at the Whitaker-Glessner steel plant at New Boston.

Suit On Check

Suit to recover \$200 on a check which he claims was given to him on March 4, 1921, by the defendant, but which was returned marked "No Funds" was brought in Municipal court Thursday by George Lenses against Paul J. Fortsch. The plaintiff sued through Attorneys Purdum and McCall.

Transcript Filed

A transcript from the Municipal court docket in the paternity suit of Louella Murphy against Edward

Schirman and Miss Lucy Lynn, extending cordial invitations to the general public to inspect their hospitals, while Mrs. H. M. Baker, of the Selby shoe factory hospital, invited the families of the company's hundreds of employees and the physicians and dentists to inspect the hospital at the factory in the afternoon from 12:30 to 5:30.

Many called at the hospitals today, taking advantage of the open house

Admitted To Probate

A will executed Dec. 16, 1909, by the late Laura J. B. Lloyd was admitted to probate Thursday. The testatrix, who died at her home in this city on March 4, 1918, left all her property to her daughter, Genevieve L. Sheetz, who lives at Bismarck, Arizona.

Court of Appeals Here

Enroute home from Adams and Brown counties where they held the May terms of court, Judge Edwin D. Sayre, William H. Middleton and Roscoe J. Mauck stopped over here Thursday in consultation on cases submitted from this and other counties.

Value of Collective Opinion.
Whenever we stand in need of intricate knowledge, balanced judgment, or delicate analysis, it is our comfortable habit to question our neighbors. They may be no wiser and no better informed than we are; but a collective opinion has its value, or at least its satisfying qualities. For one thing, there is so much of it. For another, it seldom lacks variety.—Agnes Repplier, in the Atlantic.

Value of Song.
A well-composed song strikes the mind and softens the feelings and produces a greater effect than a moral work, which convinces our reason, but does not warm our feelings or effect the slightest alteration in our habits.—Napoleon.

Still One Thing to Learn.

"What are your daughters studying now?" "Nothing," replied Mr. Cumrox. "They have learnt all about music, painting, and literature. All they've got left to learn is not to bother people with them."

NEW YORK STOCKS

NEW YORK, May 12.—Virtually every division of the list, excepting copper and utilities, contributed to a generally lower range of prices at the opening of today's stock market. Bulls were dull but reactionaries under lead of the owners. Reactions to the leading foreign centers were variable.

An opening rate of 7 percent for call money, the highest initial quotation in several weeks, accelerated additional selling and further impairment of prices during the morning. Among high grade oils, especially Mexican and Pan-American Petroleum, Royal Dutch and Houston, declines ran from 2 to 4 points. Motors and related issues, such as Studebaker, U. S. Rubber and Bosch Magneto, were 1 to 3/4 points lower. Steels, equipments, shipyards and half a score of unclassified

The Right Way to Invest

A promise of 15% on your money will do you no good if, after a year or so, you have lost your principal and have nothing to show for your investment. It is far better to have say 8% on your money and have the principal safe. Safety must be considered before the rate of income if you would invest wisely.

The right way to invest, therefore, is to find the safe investment that suits your needs, and be content with the rate of income which it returns.

Just at present high-grade safe investments may be bought at prices to yield as high as 8%.

It is our business to help you place your money in safe securities which will give you steady, dependable and satisfactory income.

GRAIN AND PROVISIONS

CHICAGO

CHICAGO May 12.—Improved weather

conditions had a bearish influence

today on the wheat market. Some

attention was given also to reports of

continued industrial conditions in Great

Britain. On the other hand, Senate

action in regard to the emergency

tariff bill appeared to have been fully

discounted. Opening prices, which

ranged from unchanged figures to 1 1/2

lower, with May 1.43 @ 1.43 1/2 and

July 1.16 to 1.16 1/2, were followed by a

moderate rally and then by declines

all around.

Corn took the same path as wheat.

After opening, unchanged to 1/2 lower

including July at 63 1/2 to 64 1/2, the market

settled a trifle and then underwent a

general sag.

Oats were easier with other cereals

starting 1/2 to 5/8 @ 1/2 lower with

July 20 1/2 to 20 3/4, and later showing

little power to recover.

Provisions lacked any aggressive

support.

Games This Week
 Thursday, May 12—N. & W. vs. Steel Plant.
 Friday, May 13—Labor Council vs. Solvay.
 Saturday, May 14—Excelsior vs. Selly.

Handicapped by a wet and soggy field, making the going as if traversing through a quagmire, the Excelsiors and Central Labor Council teams played a bang-up game at the Seventeenth-street grounds last evening, with a crowd of fully 2000 people enjoying the exciting contest. The Excelsiors won by the score of 3 to 2, but they knew they had been in a hull game before they registered their last out. The game was the best yet offered in the Industrial League and the fans sat through until the end, with hearts beating like trip hammers as the two evenly matched teams battled away in the mud.

Early in the evening it looked as though there was no chance to stage the battle. The incessant rain fall of Wednesday afternoon had thoroughly soaked the field, water standing ankle deep in many spots. But President Dan W. Conroy has issued instructions to his umpires to stage every game possible and the fans can be assured that games will be played on scheduled time if there is one chance in twenty-five. In this manner it is hoped to avert double headers.

Judging from the contest put up, had the grounds been in tip top shape the fans might have suffered attacks of heart failure, for the game was that exciting that hearts were taxed to the limit. The two teams, both presenting many new players in these particular parts, was a bumbling and had a lot of not been for several misplays in the shape of wild ducks, the two teams would have been battling one to one at the close. As it was, two wild pigs in the last frame gave the Laborites their second run, while a couple of mud huris on the part of the Excelsiors gave the Shoemakers a couple of marks in the second inning.

Two new twirlers faced the large crowd of fully 2000 fans, Mr. Warnock of the Excelsiors, and Mr. Furbus of the Labor team. Both did fine work, although the odds favored Warnock, who allowed but three hits, scattered through as many innings. Mr. Furbus, a tall south-paw, was found for eight solid raps, three of which came in the opening frame. After that he was right over the plate with a fine assortment of benders and he is going to make it pretty hard sledding for the batters in the league.

Mr. Warnock, as tall as a scarecrow, is a cool, collected fellow, who does not mind if an error is made behind him. He has a free easy motion and is going to more than hold up his end of any argument in which he may participate at the Seventeenth street grounds.

The Central Labor lads have not as yet received their new uniforms but they are expected here any day now. The team strikes up in fine shape and there seems to be no weak spots. True, some of the boys did not hit as expected, but once they get their batting jumps trimmed and burning, they will club their way to several victories.

Harry Dunham, out first for the Labor lads, put up a rattling fine game and delivered a finely single in the opening frame. Pitcher Furbus fielded his position right up to the handle, and Captain Cooper at third was there all

the time. For the Excelsiors, outside of the fine pitching of Mr. Warnock, was the particularly stick work of the Shoemakers, Coraune and McDaniels. Barber at first got but one hit, but it was a whole of a double and on a dry field would have climbed the embankment and gone for a home run—hard luck, Josephus.

The Central Labor went to bat first and scored blood. Johnny Grimm leading off, was tossed out at first on his roller to second and after polling out eight vicious fouls, Ches Riggles whiffed. Floyd Smith walked and so did Captain Cooper. Whereupon Dunham blazed a pretty single to center, Smith scoring. Howard Monk then rolled to short, a pretty stop by Deberly.

The Excelsiors tied the count in their half. Banfield started proceedings with a single cushion shot to middle. Schweinsberg lifted a fly to Grimm in right. Coraune drove a single to middle, registering Banfield. Barber fouled to the catcher, McDaniels singled to right, but Coraune was nailed at third on the relay. The Shoemakers counted twice in the second. Doherty walked, Jeanguenat tossed wild to second on Doherty's sacrifice. Doherty was forced at third on Lowry's rap. Doherty stole, as did Lowry. Doherty registered on Warnock's long fly to left. Lowry coming wide in an attempt for a double play. Monk taking second, Doherty duplicated Coraune's chuck on Furbus. Jeanguenat registering. A hit would have tied the count, but Lowry in left devoured Grimm's bid for a single and the J's was up for the Laborites. The score:

Goodbye Poor Reds

BROOKLYN, May 12—Brooklyn made it two straight from Cincinnati, defeating the Reds five to four, although the visitors made more than twice as many hits. The Superbas punched hits off Marquard in the first two innings, while Smith of Brooklyn was aided by sensational fielding. Johnston opened the game with a home run. Score:

ARENA WILL SEAT 50,000

NEW YORK, May 12.—Although the opening of the public sale of seats for the Dempsey-Carpentier championship contest in Jersey City on July 2 will not begin for several days, the advance reservations already assure a record breaking attendance. Both in gate receipts and actual number of spectators the records established at the Johnson-Gibbs, Johnson-Willard, Willard-Alena and Dempsey-Willard bouts are certain to be surpassed.

Official diagrams of the arena, distributed today, indicate that the box-

ing amphitheater to be built by Profrider Tex Rickard will seat 50,000 or more spectators. The present plans, which are subject to alterations, provide for 35 rows of 500 seats and north of one hundred mezzanine boxes, which, it is understood, will be occupied principally by women. Back of these boxes are to be erected four rows of 400 seats and a similar number of 350 rows. These in turn are followed by 30 rows of 250 seats, three rows of 200, twenty-five rows of 175, 25 rows of 150, and eleven rows of 125 seats.

As the arena is to be an octagonally shaped structure with a radius of more than 200 feet, the number of seats included in each of these eight sided rows may be approximately estimated. In the 100 dollar section alone close to 4,000 seats already have been reserved.

Carpentier and his party are expected to arrive here Sunday, on the steamer La Savoie, and Rickard is arranging for a special reception committee to meet them.

BOWLING

Fine Meetings At First Baptist

The Christians of Portsmouth who are not attending all the meetings at the First Baptist church this week are missing a rare opportunity for Bible study and a deepening of their spiritual life. Rev. Robt. C. McQuilkin of Philadelphia is bringing searching messages, but messages full of blessed hope for those who are willing to yield their whole lives to God and believe in Him for the absolute control of them.

Yesterday afternoon at 3:00 o'clock was the second study in the Book of Romans. Mr. McQuilkin has been given a wonderful insight into the practical teaching of this book as well as into our everyday lives. And there was not one present whose heart was not touched by the clear teaching of God in this book regarding man's sin and God's remedy for it. The afternoon meeting is preceded by a 30-minute prayer service.

At 7:30 p.m. the evening, Mr. McQuilkin again addressed a large crowd, speaking on the subject, "Struggle and Temptation in the Christian Life." He said that "No one ever lived a Christian life by trying to, any more than one person can love another by simply trying to love him. Such a love as that from a husband would hardly be acceptable to a wife. We never become good by struggling to be good. A father is not able to float on the water by struggling to hold him up. So God's way of victory over sin is not through the effort of the sinner, but is a miracle of Grace, which only by God in the heart of him who commits himself completely to God, trusting Him for cleansing of the past and for the power to meet every temptation of the present."

On Friday evening, Mr. McQuilkin expects to speak on "The Victorious Life and Service." The same people are especially invited to this meeting. There will be no service on Saturday afternoon but there will be Saturday evening.

Mr. McQuilkin will speak on Sunday, both morning and evening.

On Sunday afternoon at 3 o'clock will be a mass meeting to which are invited in a special way all the Christian people of the city. It is hoped that everyone who possibly can will attend this afternoon meeting. Subjects will be announced later. Time of meetings 3 p.m. and 7:30 p.m., last time.

CRACK WITH BASEBALL SAVES YOUNG WOMAN FROM AN OPERATION

FINDLAY, O., May 12.—Miss Gretchen Todd, high school student at Van Buren near here, wrenched her neck two months ago when she fell down stairs at her home and it has been necessary for her to carry her head to one side since then. Today while attending a baseball game Miss Todd's head was struck accidentally by a foul ball. Those slitting nearly heard a distinct snap and it developed that the "crack" had disappeared entirely from Miss Todd's neck. She suffered no pain and tonight her neck was in normal position again. She had expected to undergo an operation for the trouble as soon as school was out. She had been in the hospital here for treatment, but without much success.

Suffering of a Quarter Century Quickly Relieved by Nerv-Worth

West Virginian Tells Interesting Story

"I suffered 25 years with stomach trouble and nervousness," said L. E. Ferguson, Route 2, Clarksburg, W. Va., in a letter written some time ago, and he continues, "I had pains in my stomach, back and side, and my circulation was poor. I got no sleep and was as tired in the morning when I got up as when I went to bed. I became restless and dependent. I had doctor's right smart and spent lots of money, but my food would not digest and I was always full of gas. Since taking Nerv-Worth, my condition is a great deal better in every way. I am feeling good, sleeping fine, my food digests, and the gases are gone. My whole general condition is much improved and I certainly recommend Nerv-Worth to my friends. If it's stomach trouble you have, the above statement proves to you that Nerv-Worth is the medicine you want. Remember is your first bottle is not satisfactory, your druggist is authorized to refund your money. Nerv-Worth is sold and recommended by Fisher & Stretch. — Adv.

VALUE BY COMPARISON

Compare the garments we make with any other men's clothing either made to order or ready-made, and you will find that no concern in the United States can give you as good clothes for the money.

Our method of buying woollens direct from the mills, tailoring the garments in our own shops, and selling them direct to the consumer, begets a large volume of business.

This enables us to do business on a small overhead expense and a very nominal profit per garment.

Compare our inbuilt quality with other clothes and we'll get your order.

Absence of Disease Isn't Health; You Need Vitality, Energy

You may have no particular disease, and yet fall far short of enjoying real health. To be actually healthy you must be sturdy, alert, vigorous, a-sparkle with enthusiasm and the joy of living—fairly bubbling over with vitality and energy. Are you thus?

If you are well, yet listless and unambitious, it is because you lack some quality that would fill you with vim and drive, and nine times out of ten the sole cause of this lack is found to be disordered, weak blood.

Wholesome blood is the very fountain source of that energy which puts spring into your muscles, snap into your step and spar-

kle into your eyes. If you want all this, begin right now to enrich your blood stream.

You will find, as thousands of others have found in the last fifty years, that S.S.S. is an excellent remedy to do this for you, one that removes the poisonous impurities and helps build your blood into a rich, nourishing supply. S.S.S. is an herb compound, discovered by the Indians, and still made as they made it.

THE REMEDY TO BE APPLIED

DOUTBLESS, stirred to action by the unanimous complaints from all sections of the atrocious temporary detours provided where roads are undergoing improvement, the state highway department has ordered that hereafter the detours shall be of a safe and comfortable character.

As a means to this end it has ordered the county engineers to have supervision of all detours in their respective counties and will hold them accountable for any failure to construct and keep them in reasonably good condition to accommodate the traffic that would pass over them.

This ought to, and may be, put an end to a system that has heretofore been intolerable. It was a system, which grew up out of a divided control, or one in which no department chose to assume control over. Where permanent improvement was underway the state assumed authority in construction. This took direction out of the hands of either the county commissioners or county engineer seemingly, at least, while the supervisor provided by the state, paid no regard at all to the detours, so the contractors were left to work their own sweet way with them, and, of course, provided any sort, just so it was the cheapest and some vehicle could get over it some time.

It is pleasant to anticipate that this situation is to be no longer tolerated. Ohio has paid a tidy sum for her better highways, not only at original cost but upon the annoyance and waste suffered while improvements were under way.

NO PATIENCE WITH OLD PLANTS

A COMMITTEE from Haiti and of indefinite origin and authority has memorialized the president and congress on the conduct of American marines on that island, charging them with every crime on the calendar and a few not appearing thereon, for good measure, it is to be supposed.

Secretary of the Navy Deuby characterizes the charges as "the same old rot" and says he is tired of it. Well he may be. The country first heard of them in the early fall of last year, when they were exploited, probably, to bring discredit upon the Wilson administration. Since, as well as before they entered into the campaign they were investigated by the navy and marine bureau several times and found to be without base, the testimony generally going to show the military forces on the island had behaved admirably and their presence had been effective in maintaining an order and security that the natives had not experienced in many years.

Of course, it can not be altogether pleasant to the Haitians to have their country dominated by a foreign military, but there is an element prefers this as the far lesser evil, while another element opposes it because they thrive best where there is no stable and honest rule.

GERMANY HAS COME TO TERMS

ANOTHER of those awful, but common monsters, crises has come to an end without a catelany and Germany has come to the indemnity terms set down by the Allies and the Ruhr district will not be occupied by her foes.

As a matter of fact nothing else than this conclusion was to have been expected at any time. Germany was in a position where she could do nothing but accept.

Accepting and complying, however, are two different propositions. Germany has accepted, her compliance is another matter. Always heretofore she has halted, paltered and evaded and in her latest compliance is seen hint that she will not change her ways. For the argument was that acceptance now might lead to lessening of the harsh conditions hereafter.

Well, it may be so after that. There is no denying that the penalties set are rigorous and time may prove they are more than the country can carry. The world is prone to forget, to condone, if it doesn't forgive, and if Germany avoids continued irritation of deep animosities by a displayed willingness to pay all she can the judgment against her proving excessive it may be materially softened.

The government took in a billion, two hundred thousand dollars less than it spent for operating railroads during the war, a tremendous loss. That is one way of looking at it and the wrong way. Another and a right way is this: The government found the transportation systems staggering to a total collapse. It took hold and carried on until the war was won, a year shorter than the time the most sanguine expectation had set for victory. That saved twenty times a billion dollars and tens of thousand more precious lives.

It sometimes shocks a man to discover how few of his supposed friends are ready to help him in time of trouble.

Persons who cheek against their health without doing anything to increase the deposits regret it sooner or later.

One pest everybody would like to see eliminated is the person who never seems to know you until he needs your help.

President Harding will endeavor to do something to alleviate "the critical financial condition" of the railroads. They have come to be every administration's poor relation.

Perhaps the non-beverage strawberry wine which southern growers will be permitted to make is to be used as a substitute for gasoline.

It is hard to convince the average girl that regular exercise will provide a better complexion than the pharmacists keep in stock.

The Tea Party Lobby

By Frederic J. Haskin

WASHINGTON, D. C., May 12.—A propaganda which has for its purpose to make some of the sessions of congress social occasions of the first importance, to fill the galleries with beautiful women, dot the splendid terraces of the Capitol with tea tables, and generally lighten and beautify the monotonous business of passing laws by encouraging the fair sex to take an interest in it, has just been initiated here by Mr. Harry Walker, well known both as a journalist and politician.

It is understood that Mr. Walker is backed in his campaign for social atmosphere in congress by a certain wealthy congressman, who chooses to remain for the time being anonymous, and that great interest has been awakened in social circles. The ladies are said to take to the idea with relief.

It may seem to you that this is not a project of the first importance, but that is because you have not talked to Mr. Walker about it. He claims that the stimulus of feminine beauty in the galleries is just what congress needs; that the realization of his project will make the Congressional Record more interesting, will raise the level of debate and speed the dispatch of business.

Many have noticed that congress seems to exist in a perpetual state of lethargy. It is hard to gather a quorum for the transmission of business. When the bell rings for a roll call, the members respond slowly, reluctantly, and with yawns. Delicate tones to be voluminous rather than spirited. The typical member of congress is slow in starting a speech, but when once he gets under way he seems to be the victim of a sort of cholera. Words out of him in an endless monotonous stream to the rhythm of snoring from his colleagues.

In the gallery a few tourists from a rubber-neck wagon look on apathetically and wonder when these scenes of animation which they have read about in their school books will take place. The reporter asleep in the press gallery knows that such scenes are extremely rare, and that they are characterized by chaos rather than by brilliance.

A Stimulus for Congress
Mr. Walker is not responsible for this picture of congress in action, but he does say what congress needs is a tonic, a stimulant.

What are the time honored stimulants of mortal man? Certainly women stand first among these. Wine, of course, has been regarded as a stimulant in the past but now it is abolished, especially from the halls of Congress. For how could a congressman who had vetted dry take a drink? It is unthinkable.

Muscle is also a famous quickener of the mental processes. It has recently been used as a therapeutic in insane asylums and as a means of preventing mutiny in penitentiaries. Why should it not be tried on congress? The legislators might do a better day's work if they began each morning, like school children, by singing "Columbia, The Gem of the Ocean" or "My Country 'Tis of Thee." But here again difficulties are encountered. Authorities have expressed doubt whether there is enough musical talent in the house and senate combined to carry a tune. There remain the ladies. There is no such thing as a congressman who is not responsive to feminine beauty. That a gallery of beautifully groomed women would be provocative of better speeches is a fact too obvious to need detailed consideration, especially in view of the fact that the ladies would be voters as well as charmers. Then, too, women now sit in congress and it is natural that they should wish to be represented in the galleries as well.

Finally, there is abundant precedent for the custom. In nearly all civilized countries, there is a more social atmosphere about parliamentary proceedings than in this country. Society attends upon the English House of Commons on certain occasions, as it does also upon the French Chamber of Deputies. And those who are averse to following foreign precedents can find one nearer home. There was a time when Albany was one of the great social centers of America, and when the meeting of the New York State Legislature was a social occasion of great brilliancy. Nor is it of record that the quality either of the legislators or of the legislation has improved since then.

Again the beginnings of a connection between society and our National Government have already been made here in Washington. Since former President Wilson inaugurated the custom of reading presidential messages to congress, there has been a growing tendency for society to attend the readings, and the new administration has shown an increase in that tendency. These message days have led to our shirt-sleeved, perspiring congress a touch of the dignity and splendor which surely the legislature

of a great nation should have. Mr. Walker does not claim that his idea is either new or original. In fact, he reveals the fact that it originated away back in the nineties in the brain of a congressman who had the distinction of being the only showman who ever sat in the congress of the United States.

Showman Originated Idea

Harry Miner was a theater owner of New York whom no doubt many readers of this will remember. They may remember also that he defeated the famous Tim Campbell for a seat in congress. Campbell is the man who immortalized himself by his reply to President Cleveland, when the latter objected to some plan of Mr. Campbell's on the ground that it was against the constitution.

"But what is the constitution between friends, Mr. President?" inquired Tim. And his words have gone echoing down the years, gaining significance as they go.

At any rate, Mr. Campbell's career in congress came to an end when Mr. Miner ran against him. His defeat is said to have been due primarily to the fact that he was seen lurching with the British ambassador.

Many wondered at the time why the famous theatrical magnate wanted a seat in congress. But "his friends" knew the reason. Miner was deeply in love with the most famous actress of that day, and one of the most beautiful who ever graced the American stage. Mr. Miner thought that one way of impressing the lady would be to go to congress and make a great speech. With true theatrical instinct he no doubt pictured the whole scene to himself—the crowded house, the galleries filled with beautiful women, and distinguished men, all of them hanging upon his words. He had a fine presence, and wore in his necktie an enormous diamond which alone was enough to focus the eyes of a multitude upon him. He also had a good voice. All that he needed was a speech, and being a wealthy man he could easily buy that.

But when the showman took his seat in congress he was bitterly disappointed. He found that the drama which he proposed to stage faced a chronically poor house. It was crowded only when it had some important business under way, and then he was unable to get the favor of the speaker. He could not very well ask his fair one to come and take her place among a few farmers and school children in the gallery, and listen to him haranguing a half dozen dozing colleagues.

Accordingly he launched a lobby for a ladies' night at the Capitol, and he hired Mr. Walker, then a young journalist, to write him a speech on the subject. Mr. Walker testifies that he wrote the speech and collected \$200 for it, but that Mr. Miner never delivered it because Speaker Reed wouldn't let him.

"It's a good idea, Harry, but you're ahead of your time," the czar of the House is reported to have said. He advised Mr. Miner to wait until ladies had made for themselves more of a place in politics.

That time, says Mr. Walker, has surely come. Harry Miner married his beloved without making any speech in congress. He has been dead many years. The beautiful woman who inspired the idea of a ladies' night at the Capitol, still lives in New York. If the project is ever realized, Mr. Walker says, she and Harry Miner should get a share of the credit.

New-York-Day-By-Day

BY O. O. McINTYRE

NEW YORK, May 12.—Over in Sutton Square, a row of ramshackle houses are being demolished to make way for the new mansion of Mrs. W. K. Vanderbilt, who has sold her Fifth Avenue castle to tradition.

The terrace gardens will overlook Blackwell's Island prison in the middle of the East River. A strange surrounding, indeed, for a social dweller. To the southward stretches Avenue A—fabled in song and story. The avenue of slum tenements filled with a polyglot people. Next door to the Vanderbilt site is a contractor's stable and the pier of the little tug that carries Jordan men and women to the death atmosphere of the gray prison.

Only a few city blocks from Fifth Avenue, indeed, but a social chasm deeper than the ocean separates the shiny serge of Avenue A from the shiny silk of Fifth Avenue. New York society is much like a herd of sheep and Avenue A, may soon become a perfumed park.

On a Sunday afternoon stroll I wandered down Avenue A from the shiny silk of Fifth Avenue. Kneels of leering young embryo gangsters congregated in front of the shuttered saloons on the corners. Shirt-sleeved men with pipes and old women sat brooding on the stoeps.

In the courtyard of an abandoned brewery young girls roamed and skittered in shabby imitation of their Broadway sisters dined with youths who wore caps. A big chalk sign on the wall read: "To The Dusters: The Thirty-First Street Gang bars you from the dead line. That's Third Avenue and keep away or get beat up." A hardy-curly ground out last summer's popular airs.

The side streets are swarming with children, mostly of foreign parentage, and the streets were filled with broken glass—a civic barrier the parents erect against the trespassing by motorists. A head leaned out every window revealing three faces, looking hopelessly for some relief from the terrible ennui

of mere existence. "Can I speak to you a minute?" a voice whispered at my elbow. He was a Broadway moocher. I knew by sight, in his own haunts. It was the same old plea. "I'm hungry and need a cup o' coffee and a bowl o' soup." The telephone is quick, but the magic of Avenue A's signals is quicker, for three blocks south three buggars came slinking out of side streets to greet me. It is difficult to believe that Avenue A will become a glorified Boulevard. Walk for society, and yet so swift are the changes that I now believe what I used to doubt—that early day Manhattan used to drive in coaches to what is now Forty-Second street and Broadway to hold outdoor picnics.

"Millinery for Bobbed Hair"—that is a sign under the name of a French milliner who has opened up a shop in the down-town section. Her shop will be exclusively for patrons who have bobbed hair. Bobbed hair requires a certain type of headgear, and so great is the army of short-haired girls and women that the milliner is simply filling a genuine feminine need.

There is one news story in New York that the newspapers kindly suppress each year. At least they do not mention any names. In one of the big hotels there is an annual dinner in a private banquet hall. Well dressed men in evening clothes to the number of 40 attend. There is nothing about them to indicate that they are anything but what they are—successful business men. They discuss over their meal the topics of the day and all know each other by first names. But when cigars are lighted, waiters and bus boys are driven out and the doors are locked. Then they discuss the past. All are ex-convicts who have served terms in Sing Sing. Two or three former wardens are usually the guests of honor. They have proved that an ex-convict can make good.

TOPICS OF THE TIMES

Music That Inspires

The Cathedral of Notre Dame in Paris, when Napoleon was crowned Emperor of France, was the scene of a great memorial service one morning last week in his honor. An account of this ceremony says: "A deep stirring roll of drums heralded the beginning of the service. It was the prelude to Berlioz's funeral march."

There is no war music that compares with drums. It may be barbaric, as some declare, but it holds an authority over the blood, and carries a thrill to the souls of men, such as come from no other source. Combined with the shrill call and searching penetration of the fife, it is irresistible in its appeal to patriots. It is to us the one perfect war music.

What the drums and fife are to war, the funeral march is to death. Its stately majesty is the most impressive to be found in the whole realm of music. It carries with it the noblest thoughts of heroism, brings to the mind's eye the banners of the grave, and reaches the profoundest depths of human nature. No spoken word, however eloquent, rivals its effect upon the mind and heart.

No wonder "the vast congregation was still and spellbound." The one hundredth anniversary of the death of Napoleon was fittingly begun. The flag of France was properly dipped in memory of an incomparable career. The most remarkable personality Europe has known was again living in the hearts of his devoted countrymen.

The Pie of Commerce
As a man grows older he becomes suspicious of pie, attributes to it the origin of many indignations and discomforts, and views it with displeasure. It is usually the combination of crust and content that causes the trouble. We have never yet seen an innocent pie crust, and now we are wondering just how guilty the pie substance has been. This thought follows the news that a standard filler for professional American pie makers has been adopted by the National Association of Master Pie Bakers. "No more substitutes. Eggs must be eggs and sugar sugar. Peaches must be more closely the original product," says the chairman of our pie-men.

Aha! The secret's out. The filler has been tampered with. With a guilty crust and an untrue filler, no wonder the consumers of 150,000 pies a day in the public eating places of three cities alone have been driven to poison and other medicaments! A guilty pie, unfilled within but without, is indeed an abomination. The true love of the people has been doctored—at dinner, at lunch—yes, even

The Taste Universal

When a completely equipped whisky still is found in operation on the top floor of the residence of a handsome and gifted young instructor in the medical school of Harvard University, we glimpse the tonic appetite for alcohol that exists among the learned as well as in the ranks of men of mediocre intelligence.

The appetites of men are all alike. It is circumstance and opportunity alone that develop the taste for evil and other refinements of the palate. The natural liking for them awaits only a chance for gratification.

Love or Something Else?

Sex attraction may be instantaneous. There undoubtedly is such a thing as love at first sight. We hear of meetings and meetings within a week or a month. Sometimes time justifies them, but they are always hazardous.

True love can always afford to wait, and it is better to be safe than sorry. There are many deceptive imitations, as the divorce courts abundantly prove. One of the most dangerous of these is infatuation. The word infatuation means "to make foolish." Almost invariably it is a sensual passion—a temporary enthusiasm. When young people wed under such an influence there is much to fear, for when infatuation ceases disgust usually takes its place.

A clean, honest youth and a virtuous maid will always be wise in resisting an impulse to marry on short acquaintance. A life contract is an almighty serious one to enter, and those who give love time to prove itself first never regret so doing.

When 90 per cent of the cost of a finished steel rail or beam or cross-piece is labor, the men who boost Texas cattle from \$5 a ton to \$150 haven't so very much on organized labor.

The Montana man whose hand has been declined by divers and sundry maids, appeals to be relieved from the tax on bachelors in that state. It would seem that mitigating circumstances attend his offense in bachelorhood. If there is any justice in law, his condition must be pitiable.

Best Way to Wash a Rug.

Stretch the rug and tack it upon a clean floor. After scouring it well with soapuds, rinse thoroughly to remove all trace of the animal matter in the soap. Let the rug stay tacked down until perfectly dry, so that it will not shrink.

WHO'S WHO

in The Days News

POST WHEELER
Post Wheeler has recently been named assistant counselor of the United States embassy in London. After his appointment he made a brief visit to Washington and then left for London to take up his new duties.

The diplomatic game is not a new one to Wheeler, as he has been at various times second secretary to the American embassy at Tokyo and secretary to the embassies at St. Petersburg, at Rome, Stockholm.

Wheeler is also an author. Among his works are "The Russian Tales," "Love in a Mist," "The Writer," and many interesting things about the Turkish Indians.

In addition to writing books, Wheeler was the Morocco and Paris correspondent of the Westminster Gazette and the New York Evening Post. He was editor of the New York Press from 1906 to 1909.

He was born in Oswego, N. Y., August 6, 1860. He received degrees from Princeton University of Pennsylvania and Sorbonne, Paris.

Q. What is the Indianapolis plan?
A. It is.

Q. This is a name given to a form of city government used in that city and generally accepted as a model of its kind. It provides for a mayor elected every four years, a single legislative chamber, a common council, and various administrative departments such as public safety and public health. The guiding principle of this form of municipal government is the complete separation of powers and the direct placing of responsibility.

Q. Why are turpentines, tar and pitch known as naval stores—R. G.
A. The origin of this term is obscure, but it is probable that it was derived from the fact that these materials were at one time mainly used by shipping.

Q. Where were the Stars and Stripes first carried into battle?
A. W. M. W.

Q. The Stars and Stripes were first unfurled in battle during the engagement at Oriskany, N. Y., on August 6th, 1777.

Q. Has a patent ever been taken out on a perpetual motion machine?
A. C.

Q. The views of the Patent Office are in accord with those of the scientists who have investigated the subject, and are to the effect that a mechanical perpetual motion is a physical impossibility. These views can be refuted only by the exhibition of a working model. Many persons have filed applications for patents on perpetual motion, but such applications have been rejected as unproductive, and in no instance has the requirement of the Patent Office for a working model been complied with.

Daily Thought.

The mind that is cheerful in its present state will be adverse to all solicitudes to the future, and will meet the bitter occurrences of life with a placid smile.—Horace.

The Swatter
They swat the politician, and at the neighbors hit. Do they let up on religion? Oh, not a little bit.

They swat the employer, they swat the employee. They swat the unemployed, and they even swat me. Who am I? Ha! I scarce can make a rhyme.

For surely you have guessed ere this—I am "Old Father Time."

Some want me to go fast enough to break my poor old neck, and others want to go so slow, they would the record break.

Lead us not into temptation, every Sabbath is your prayer, but they've fixed me till most people forget to pray for me.

You know about the Israelites that Pharaoh gave new time. And all they had was straw and dirt with plenty of mud and slime. All his thought was of Pharaoh, others had no part.

The reason why you all know well, Pharaoh had no heart. Now people wonder this in mind and they do not forget.

Although 'tis 1921, there's plenty of Pharaohs yet. Quit your swatting, he contented, don't try to rule the earth.

And instead of frowning faces, you'll see faces full of mirth. There is none of us that's perfect, for even the greatest have their blemishes in our inmost hearts, as you can plainly see.

Just let me whisper to you, let good enough alone.

And him being Pharaoh's and swatters let us all alone.

Unkind Retort

One evening a farmer met his man with a lantern and asked him where he was going.

"Confining" was the reply.

"Confining?" said the farmer, "with a lantern I never took a lantern with me when I went courtin'."

"I thought not," replied the man, "when I first saw your missus."—Pearson's Weekly (London).

Lost Through Curiosity

Maud is sorry now that she took Jack's ring back to the store to be valued.

"Why?"

Not Wonderful, Just Natural

A party of tourists were watching the water pouring over Niagara Falls. "O'Killy" was among them.

"Isn't it wonderful?" one of them asked O'Killy.

"I don't see as it's wonderful," said he. "What is there ter hinder the water going over?"

No Chance in This Case

A certain member of congress recently became a parent. On announcing the new the doctor exclaimed:

"No chance in this case!"

"Why?"

"The congressman was astonished. 'No, no, no,' he replied, with more than parliamentary emphasis. 'There must be some mistake in the return. I demand a recount!'"
